BOY TRACK STARS SCORE IN BIG MEET AT SEQUOIA

Boys From Entire Peninsula Gather at Meet Sponsored as Part of Y. M. C. A. Athletic Program

Some very splendid records were made by the boys of the peninsula in the Fifth Annual Y. M. C. A. track meet for the boys of this section which was held at the Sequoia High School on Saturday.

The system of points in the meet is such that the average boy can make points. There is a minimum record in each event in each weight class which entitles a boy to one point and a unit system of advancement in points in bettering this record. In the dashes for instance every 1-5th second a boy beats the minimum record an additional point is added to his score. The minimum record increases in each higher weight class in such a way that the boy in the 80-pound class has an equal opportunity with those in any of the heavier weights for winning the high place in the meet.

Ribbons were awarded to the first three places in each event in each weight class and medals teo the high point man of the meet and to the high point man of each weight class.

Close to fifty boys have been picked as a result of their records in track last Saturday to represent the peninsula in the Zone No. 4 track event of the Californiad of the Young Men's Christian Association. Those making places on Saturday will compete in the finals against the Y. M. C. A.s of northern California.

Boys from Redwood City are James McLaren, Julio Gastro, Charles Bendeich, Gordon Leake, Darwin Wheeler, and as substitutes in case any of the 80-Pound Class are unable to go Pasco Balzerinni and Kenneth Moulton have been picked. From Palo Alto Hideo and Toshio Furukawa, Thomas Gorman, Frank Thommen, Glen Herreman, Ed Neikirk, Billy Sasagawa, Alvin Sebring, Naro Seki, Richard Boyer and Kenneth Reynolds have been picked and Sonny Buckout from Menlo Park.

The Redwood City boys will meet at the Methodist Church at 7:45 a. m. on Saturday from which place they will go to the Kezar stdium, where the meet will be held.

Jerome Nasits and Kenneth Diehl will also go at this time to compete in the airplane competition which will be held at the Kezar pavilion beginning at 9:30 a. m. Emil Steinnegar and Roy A. Hohberger will accompany the boys.

Sequoia High To Hold Campus Day

By ANDY BRIGHT

Over 1000 students of Sequoia Union High School are enjoying their annual campus day today. The day is being carried out in 49'er style, and the boys' gym will, tonight, be the El Dorado dance hall.

The day started with an informal assembly in the boys gym, and at this time the beard contest will be brought to a close with the decisions of three local barbers who will act as judges. Prizes will be given for the longest and toughest beards and a bottle of high powered hair tonic will be awarded as the consolation prize.

As has been the custom for several years the boys will work in squads around the buildings and grounds, while the girls work inside. At 12 o'clock a free lunch will be served in 49'er style to the workers.

At 1 o'clock the annual game between the seniors and the faculty will take place on the baseball field, and at 3 o'clock the students will swim in the pool.

Numerous student committees are handling the program, dance and refreshments. Helen Durnam, had the largest job of all. She will be in charge of preparing the lunch for 1000 students.

Two Seniors Win In Shakespeare School Contest

Enid Mays and Merlin Stokes, both seniors, were selected to represent Sequoia in the annual Shakespeare contest to be held at the University of California, May 24. Twelve contestants tried out in front of the students and six faculty judges. Charlotte Rider, senior, was judged second best among the girls, and Jack Sharlin, freshman , copped second place for the boys.

The twelve contestants were a boy and a girl from each class, and four people picked in a "free lance" contest open to ones in any class. Sequoia will compete in Class B at Berkeley, that is, schools under 1,000. Though the actual enrollment of Sequoia is 1,035, less than 1,000 students attend school every day.

All English teachers, the six judges were Miss Bioletti, Miss Gertrude Hulme, Miss Ann Burns, Mrs. Elizabeth Littler, and Mr. Claude Van Patten. The full twelve contestants were Enid Mays and Merlin Stokes, seniors; Mildred Tripp and Kermice Plowman, juniors; Anna Heffner and George Shroeder, sophomores; Ruth Dolphin and Jack Scharlin, freshman; Norman Campbell, Charlotte Rider, Thelma Barry and Hubert Barry, free lance contestants.

Local People Hurt On Way to Berkeley

Among the graduates at the State University at Berkeley Wednesday was Roy Earl Mayo, who was given his bachelor's degree in mechanical engineering. His university work was of such excellence that he was at once given a responsible position in the Caterpillar Tractor Company at San Leandro.

Roy Mayo is the decendant of a well-known pioneer family of this city. His mother, Mrs. C. E. Mayo of Long Beach, was formerly Miss Emma Leary. Sunday, while his parents were on their way from Long Beach to be present at his graduation their automobile met with an accident north of Santa Barbara and was capsized and wrecked, both of the occupants being painfully hurt. Mrs. Mayo was returned to Ventura where she was left at the home of her married daughter, and Mr. Mayo took the train at Ventura and arrived at Mt. Eden and attended the exercises. After a few days rest he will return to Long Beach.

TWO PLEAD GUILTY TO LIQUOR CHARGE

Victor Franconi, a gardener of Emerald Lake and Amelia Franconi, his wife, appeared in the court of Judge Edward I. McAuliffe yesterday afternoon. The former pleaded guilty to illegal possession of liquor. The Franconcis were arrested by Redwood City police last week when they were reported to have sold liquor to Mrs. Marguerite Leon.

Assistant District Attorney Richard Bell consented to a dismissal of a charge of illegal sale of liquor when the couple pleaded guilty to the possesion charge. At the request of their attorney, the time for sentence was continued until 2 o'clock next Thursday.

The charge against Mrs. Franconi was dismissed with the consent of Assistant District Attorney Bell.

FIREMEN'S DANCE AT PACIFIC CITY, SATURDAY

On Saturday evening, May 17th, the Burlingame Fire Department will hold its annual grand ball at Pacific City.

This year's dance is expected to surpass all former affairs which means that the spacious dance pavilion, one of the largest in the bay district, will be crowded to capacity.

The committee in charge reports the advance sale of tickets exceptionally heavy and also state that arrangements have been concluded which will insure the complete success of the dance. Fred Lamb's ten piece orchestra will furnish the music, dancing to commence at 8:30. Free buses will run bewteen Burlingame and Pacific City.

JOHN GILL GIVES CLUB TALK ON AFRICA

John Gill gave a very interesting talk to the Yomecan Club on Wednesday evening at the Sequoia Hotel on his experiences in Africa. He told of the character of the country and some of the peculiar customs of the Zulus. The club voted to send an under-privileged boy to Camp Yu-Mi-Ci-A for a week. Plans were made for an overnight camp in the Redwoods. Special guests were John Hays of Palo Alto and John Titsworth of San Francisco.

OCCIDENTAL DAIRY BUYS OUT GILLISPIE

The Occidental Dairy, conducted by J. Britschgi, and which for many years was located near the Middlefield road in the rear of the Garfield school, but which is now on Marsh road in North Palo Alto, last week purchased the Gillispie dairy on Roosevelt avenue. The new owners of the Gillispie Dairy wil continue the same routes and will deliver milk of the same grade and quality.

The Occidental Dairy is one of the oldest dairies in this section of the county, and has an enviable record for quality milk, and for cleanliness.

RAILROAD CREWS TO AID IN FIRE PREVENTION WORK

Engineers and firemen of the Southern Pacific Company, ever on watch for the appearance of danger, are preparing to go into action again as unofficial lookouts in the West's annual campaign against the devastating "fire demon."

With the approach of the dry summer season, bringing increased fire hazards, the railroad's enginemen and trainmen have been asked to keep a sharp lookout for fires along the company's 9,130 miles of Pacific lines, it anounced this week.

The importance of curbing the fire menace by observing and reporting blazes before they get beyond control on forest and farm lands is impressed upon Southern Pacific's great force of workers in a bulletin just issued by F. L. Burckhalter, general manager of the railroad.

MENALTO PARK LAND NOW SELLING RAPIDLY

Street Improvements and Sewers Are Impulse to Purchases at Popular Tract

Last Monday the board of supervisors adopted a resolution awarding a contract to Irving L. Rider of San Jose to do the street work, curbing and sidewalks in Menalto Park at North Palo Alto for $151,625. Rider is to start the improvement in this tract at once. This work is to be the very best and the materials to be used the finest on the market. The streets are to have an asphaltic concrete wearing surface three inches in thickness layed on water bound rock macadam base pavement four inches in thickness. The other improvements consist of concrete curbs and gutters and hydraulic cement sidewalks and also cement concrete pipe storm water sewers, with red burnt brick catch basins, capped with cast iron frames and gratings or covers and red burnt brick manholes capped. The water system is already installed on the track and a sewer system that unequalled anywhere is also there.

Over ninety per cent of the lots in the subdivision have been sold and the remaining lots will be disposed of by July. With the improvements completed, the tract is to be one of the finest on the peninsula.

Much of the success of the disposal of the fine holding is due to D. D. Bohannan, the sales agent and developer of the property whose ability as an organizer and scientific developer has but few equals in the state. Bohannan's outstanding achievement in the rapid selling of this property marks him as one of the most successful sales agents in California. He is a graduate of the state university and early in life took up the study of real estate. As an analytic and scientific student of this subject he has no equal.

Of course the property has extreme merit and has an attraction that lures the home buyer and investor. The bayshore highway runs through it and North Palo Alto is rapidly merging into it so that in a few years it will be a part and parcel of Palo Alto. In a short time the tract will be covered with beautiful homes. The restrictions are of a high order. No home will cost less than $5000.

These costly improvements will add to the beauty and charm of the district.

This property has been in possession of the O'Keefe family since 1879 when it was purchased from the late Mrs. Cassehly, whose husband was United States Senator from California in the early seventies.

Spring Practice Opens at Sequoia

By ARTHUR ISRAEL

With a turnout of 106 boys, all ready, and an expectancy of many more, spring practice for next year's teams is under way at Sequoia. Coach Frank Griffin has divided his 50 hoop prospects into an animal cracker league consisting of Rhinos, Hippos, Hyenas, Chipmonks, Zebras and Alligators. After this league is over, two scrimmages will be held with the white-hopes of both Palo Alto and San Mateo.

Despite the handicap that 10 of last year's varsity are graduating, Coaches Ramon Dimick and Leonard Casanova are rounding a fast team together out of practically green material. Al Cleland, 'Chuck' De Lacy, Larry Heiner and Frank Maloney are some of the few left from last year's team that should make good this season.

The football turnout consists of: Abbot, Alber, Anthony, Archibald, Armstrong, Bevolockway, Bjorquist, Broks, Bugge, Bloomquist, Craven, Cleland, Dally, DeLacy, Downs, Ferando, Gibbs, Guinasso, Heiner, Hoenck, Hopping, Hughes, Jensen, Kniveton, Cohnen, Lucier, Maloney, Mansfield, Marton, McQuickon, Merle, Mallison, W. Preston, C. Preston, Moss, Otterstod, Price, G. Rhoda, J. Rhoda, Russel, Schaffer, Sharkey, Silva, Sudjjian, Stacy, Stubee, Studley, Thorne, Thimbler, Treichel, Williams, Yancy, Willard and Wolfe.

The hoopsters are Maninat, Perry, Caffereta, Bardolan, Farhouri, Hart, Peters, Schraeder, Knivton, O'Neil, Inouye, Price, Bason, Shine, Coats, Chew, Byrd, Hirsch, Murphy, Leroy, Able, Hienton, Baughn, Praeder, Schaffer, Whitmore, Lopuyade, Davis, Vanhonsebrouck, Winzler, Gross, Pattee, Ramon, Pommes, McGuire, Argo, Baker, Halson, Demma, Harris, Bundsen, Macker, Reynick, Anderson, Hughs, Matheson, Swanson, Garcia and Schioya.

STANFORD STUDENTS PAY FOR PRANK

J. M. Roberts and T. N. Parnley, 20-year-old Stanford students, who were arrested by Officers Jim Snider and Joseph Roza at the Sequoia Theatre last Saturday night, following the complaint of Thomas Kane, the manager, that they had set fire to some paper toweling in the men's dressing room, were fined $15 each by City Police Judge Edward I. McAuliffe yesterday afternoon on a charge of malicious mischief. A liquor charge against the two students was dismissed.

Calvin Bunyard, arrested at his place on the Woodside Road following a raid carried on by Chief of Police C. L. Collins and deputies last Friday night, appeared before Police Judge Edward I. McAuliffe yesterday afternoon and entered a plea of guilty to a charge of having a slot machine and time for sentence was set for this afternoon at 2 o'clock. Bunyard's preliminary hearing on a charge of illegal possession of liquor was set by the court for Thursday afternon, May 22 at 2 o'clock.

Six visitors taken in the raid were each fined $10 on a charge of violation of a city ordinance which makes it a misdemeanor to frequent places where liquor is sold.

When the officers entered the Bunyard place, according to their report, they found several bottles of liquor and several of the occupants of the room in an intoxicated condition.

NATIVE SONS HAVE PROGRAM FOR MOTHER

Redwood Parlor of Native Sons observed Mother's Day last week with an interesting program at their regular meeting. The numbers on the program were as follows:

1. Selection by False Alarm Orchestra.
2. Piano Solo, Kendall Towne.
3. Vocal Solo, Miss Mary Flynn.
4. Marimba Solo, Ray Tinney.
5. False Alarm Orchestra.
6. Address by Chief Justice Emmet Seawell.
7. False Alarm Orchestra.
8. Operatic selections, Louis Tognoli.
9. Stories by Charles Curran.
10. Piano and banjo, Mr. and Mrs. Joe McGinnis.
11. Puppet Show, Fred Rasmussen.
12. False Alarm Orchestra.

KIWANIANS TO HOLD LADIES' DAY SOON

The Redwood City Kiwanis Club members will be hosts to their wives and other guests at their luncheon to be held at the Sequoia Hotel next Wednesday. Special feature of the luncheon will be the appearance of the "Three Musketeers," popular trio of the San Francisco Kiwanis Club, who made such a big hit in the recent concert staged by the singers of the latter club. The Alameda Kiwanis Club will pay the local service organiaztion an interclub visit on this same day, and Lieutenant Governor A. C. Jensen of San Leandro is expected as a special guest of honor. The program committee of which Charles G. Lambert is chairman, is planning to make this one of the biggest meetings of the year. Vice-president Sam Winklebleck wil be the chairman of the day.

STUDENTS OF LOUIS APPY IN RECITAL

The students of Mr. Louis Appy will give a recital at the Redwood City Woman's Club next Wednesday evening. The program will commence at 7:15 and invitations have been sent out to relatives and friends of the pupils.

Mr. Appy, who has been teaching music in this city for a number of years, as a cello artist who is known all over the United States and throughout many of the European countries. He comes from a long line of music and orchestra leaders. His great grand father was the leader of the band that led the march of Napolean to Moscow. He was in Berlin, Germany, and Russia for five years and for a number of years was coast soloist for David Bisham, the great baritone. Mr. Appy has in his possesion and which he prizes very highly, a cello owned by his father, which was made by Stadlman, the famous maker in Vienna.

His daughter, Leonore, is following in the footsteps of the father and is learning to play the cello, hopping to carry on the traditions and do justice to this illustrious family of musicians.

PHONE GIRLS GIVEN EMBLEMS OF SERVICE

Miss Terese DeBenedetti, popular telephone operator of Redwood City, is listed in the current issue of the Telephone Magazine as being eligible for a service emblem from the company. Miss Hilda Spiller of San Mateo is also listed as among those eligible for the honor.

DEATH REVEALS FRIEND AFTER LONG SEPARATION

To find that for 30 years she has lived in the same town with a woman with whom she came to California 54 years ago, and not to know that she was here until reading of her death in this paper, was the unusual experience of Mrs. W. R. Cook of this city.

Fifty-four years ago the Battles family came to California from Missouri. They came in the immigrant trains across the plans. The trains, Mrs. Cook recalls were somewhat like freight trains and were very slow, and the immigrants camped in the cars with all their belongings.

At Omaha, Nebraska, the party was joined by the Jenne family coming west from Vermont. Together the two families traveled to the new state in the west. Then separated.

Last week Mrs. Cook read of the death of Mrs. D. H. Woods, and that her name was formerly Jenne, and of how she crossed the plains to California. This was the first she knew that Mrs. Wood was one of the same party who came west from Omaha with her family many years ago.

EXCHANGE CLUB TOLD OF CATTLE RAISING

An interesting talk on the cattle industry in California was given before members of the Redwood City Exchange Club Tuesday evening by Earl D. Schalman, secretary of the Western Cattle Marketing Association. The history of the cattle industry in this state was briefly summarized and the importance of cattle in the early days of California shown. The speaker showed how at the present time better marketing conditions are secured through cooperative selling.

A. J. Stebenne gave an interesting talk on Mother's Day, and two solos by Mrs. Wilbur Doxsee, accompanied at the piano by Mrs. J. R. Fox, were enjoyed.

The chairman of the meeting was J. R. Fox. Harvey Connor announced that two planes had been secured to take a party of about 12 members of the Redwood City Exchange Club to the Exchange state convention in Santa Cruz on May 22.

Graduating Class To Present School With Fountain

By ANDY BRIGHT

Commencement day, June 6, Fred Kalenborn on behalf of the senior class, of which he is president, will present to Mr. A. C. Argo, prinicpal, the gift from the class of 1930.

It will be an ornate fountain situated between the girls' gym and the cafeteria. There will be a brass placque, stating the donor. A path of flag stones leading through the grounds around the gift will be laid. These stones were also a gift of the class. Climbing vines will be planted to go up the outside of the court, where the fountain is set. The rest of the plot will be devoted to grass and flowers.

The committee for the selection of the gift consisted of Nancy Holmquist, chairman, Dorothy Grant, Jane Meade, Charles Clancy, George Kirchner and the class advisers, Miss Mary Cowden and Mr. Byron Bentley.

LOCAL HAPPENINGS

Mr. and Mrs. Earl Baldwin came up from Hollywood to spend Mother's Day with Mrs. Baldwin's parents, Mr. and Mrs. Henry Lamb on Arch Street. Mr. Baldwin had to return Sunday evening to resume his work at the First National Studio, where he is a scenarist and dialogue writer. Mrs. Baldwin remained over for a few days.

The Redwood Social and Development Club is making preparations for the holding of the second of a series of prize waltz dances in the Foresters Hall Friday evening, June 6. The first one held a month ago was a huge success and was attended by dancers from all parts of the Peninsula.

Norman J. Hedge, who fractured his leg four weeks ago while practicing baseball and who has been confined to his home, 445 Arlington road, is able to be out again with the aid of crutches.

A. S. Liguori, Clarence Junker and Phil Kreiss will leave Sunday for Merced to attend the Grand Parlor of the Native Sons as the delegates from Redwood Parlor No. 66.

GRADE CONFERENCE MEETS TO FURTHER ELIMINATION

Chief Engineer of Railroad Commission Addresses Meeting on Cost of Crossing Removal

An important meeting in the campaign for the elimination of grade crossings on the rail lines between San Francisco and San Jose was held Wednesday evening in the city hall at Burlingame. The meeting was called by the Tri-Counties Grade Crossing Conference.

The chief speaker at the meeting was A. G. Mott, chief engineer of the California Railroad Commission. The meeting was presided over by Mayor C. A. Buck of Burlingame.

Dr. William F. Durand, president of the organization, tendered his resignation to that office, and was elected honorary president. Mayor C. H. Christensen of Palo Alto, was elected as president to succeed Dr. Durand. Prof. Earl Thomas, of Stanford University, was elected vice-president.

Representatives of practically every community from San Francisco to San Jose were present. Henry Witte of this city was present to represent this community.

"Two millions would be required to eliminate 11 per cent. of the grade crossings in the state," Mott said. "This includes crossings at which 75 per cent. of the accidents occur."

The tentative plan of the conference calls for a state bond issue to be matched by city and county funds.

In California there are 12,300 grade crossings of which 600 are within the limits of municipalities, acording to Mott. It is the plan of commissions to eliminate only the worst.

Appropriations of a part of the state gas tax with a portion of the federal appropriation for highways with the bond issue extending over a period of 40 years is planned to pay for the cost.

State Senator Herbert Jones of San Jose told the meeting that the only solution of the problem is elimination and strongly advocated diversion of a portion of the highway maintenance fund.

Towne Motor Co. Opens New Plant With Dance Today

The Towne Motor Co. will tonight open its new plant at the corner of Webster and Theatre streets. The building will be thrown open to the public, and all departments will be on display.

The building being occupied by the Towne Motor Company has just been completed by the General Properties Company, owners of the Sequoia building, at a cost of about $23,000. In it are included every facility for the handling, servicing, repairing and storage of Ford cars. A well designed display room occupies the corner position, in which the latest models of Ford cars will be on display tonight. The rear of the building, with a frontage on both streets, is occupied by a complete machine shop and service department, including grease pits, wash rack and repair department.

Kendall B. Towne, proprietor of the Towne Motor Company, has conducted the Ford agency at 331 Main street for the past five years, and during that time has created for himself a firm place in the business life of Redwood City. By fair dealind and good service he has created for himself a prosperous business, which made the new larger quarters imperative to successfully handle the growing trade.

The opening of the new store will be featured by dancing, refreshments and music. Towne and his colleagues in the business will be on hand to show visitors through the plant and to welcome their many friends.

HEARING CONTINUED ON KEYSTON MATTER

Hearing of the charges against George Keyston of Burlingame, former head of the San Francisco Stock Exchange, has been postponed until Monday. The continuance was granted to allow United States District Attorney Hatfield to determine whether or not Keyston shall be tried alone or whether the trials of several more implicated in the same matter shall be held together.

The Burlingame man is charged with having knowledge that money used by others implicated was stolen from the Bank of Italy. Officers of one branch of the bank in San Francisco were speculating in stock through the firm of Leib, Keyston & Co., with money belonging to the bank.

Preventorium Boy Wins Highest Merit Of Friendly Indians

Another honor has been won by boys of the San Mateo County Preventorium. Leonard Stuehler was awarded the highest honor that can come to a Friendly Indian under the program of the Young Men's Christian Association at the meeting of the Kiwanis Club, Tuesday afternoon. This honor signifies the completion of the work in this younger boys program. This is the third boy to receive this honor from the Preventorium. The club group in the San Mateo County Preventorium is known as the Crow Friendly Indians and holds meetings each Tuesday afternoon at 1:30. The boys are very much interested in this type of program which deals with Indian lore and story.

Dario Carraro, who won this honor about a month ago, won first place in the Zone Four Philatelic Display competition of the Californiad which was held at the Sequoia High School on Saturday. This boys' display of the present issue of postage stamps of the United States which showed the historical significance back of each person or place depicted was awarded a grade of 99% on neatness and set-up and 100% on historic reliability.

Burlingame Man Seeks Election As Co. Engineer

James S. James, former city enginer of Burlingame, was in Redwood City yesterday announcing his candidacy as county engineer in the coming election. He will compete for the office with the incumbent, George Kneese, who has held the office for the past 12 years.

In support of his candidacy James cites a long experience in civil and mining engineering. He sums his experience up as follows:

1902-1906—Education at University of Minnesota and Colorado School of Mines.

1906-1918—Member of Engineering firm, "Ingersoll, Bell and James," practicing Civil and Mining Engineering in Colorado. During this period he was City Engineer of Telluride for six years, and County Engineer for eight years.

1918-1922—General Mines Superintendent, Radium Company of Colorado.

1922-1923—Construction Superintendent, Rawley Mines, Salida, Colorado.

1923 to date—General practice of Civil Engineering in San Mateo county California.

1925-1929—City Engineer, Burlingame, California.

CALIFORNIA NEWS REVIEW

Fourteen veterans have purchased homes in Oroville with the State Veterans' Welfare Board.

The Sacramento-Reno highway, over the Sierras by Auburn and Truckee, has been opened after being closed by winter's snows.

California Federated Clubwomen of the northern district will hold their annual 1931 convention in Oroville, it had been decided, following the 1930 convention held in Chico.

Plans for immediate improvement of the Vallejo Airport with building of new runways, topping of trees adjoining the port, erection of new fences have been announced.

The state fish hatchery at Hammond will supply more than 2,000,000 trout fry for this summer's planting. More than a million eggs have been received thus far, the latest shipment coming from Montana and being in excess of 100,000 eggs.

An organization campaign for education in life saving and water safety, with the co-operation of the Santa Rosa Red Cross Chapter, the city administration and public schools, will be conducted this summer, it was announced at Santa Rosa.

Sharp competition in Scoutcraft between Indian and white boys developed at Alturas in connection with the activities of Boy Scouts of northern California. The Fort Bidwell Boy Scout troop is composed of both white and Indian boys.

Definite assurance that a new hotel, to cost approximately $150,000 will be erected this year at the Visalia airport was given in a communication from B. A. Heinly, general manager of the Communities Corporation, which is planning the construction of nine hotels at various California airports.

Smith Brothers Co., Eureka, with a bid of $13,875, had the low bid for construction of two timber bridges in Modoc County when bids were opened by the state division of highways. One bridge is to be across the North Fork of the Pit River three miles northeast of Alturas and the other across Shields Creek channel four miles northeast of Alturas.

A $9000 fund to send the seventy-three-piece Willows High School band to Flint, Mich., in June to compete in the national contest for high school bands is being raised. The Willows band won the California championship at Sacramento recently. Other California bands eligible to compete in the national contest are those of Yuba City, Sacramento and Modesto.

San Jose had been assured a new municipal auditorium as the gift of the late Mrs. Viola Dunne, widow of James Dunne, pioneer cattle baron. Mrs. Dunne left San Jose $94,000 to be used in building the James Dunne Memorial Auditorium. She also left $200,000 to the University of Santa Clara for a scholarship fund, $40,000 to the Santa Clara Carmelite Monastery, $75,000 to Hollister for a memorial auditorium, and $100,000 to the California Homeopathic Hospital.

Another industry has been brought to South Gate, J. R. Stile and C. E. Byerly having located the Nehi Bottling Company at 3217 Independence avenue. This company is a southern concern, with headquarters in Atlanta, Ga. The local plant will receive shipments of concentrated fruit juices for bottling and delivery to customers in the surrounding cities.

Contracts had been awarded at Sacramento for three highway improvement units in northern and southern California. George J. Ulrich of Modesto, on his bid of $18,037, will construct a concrete bridge on the Mother Lode highway, Calaveras County. Contract for oiling 26 miles in Los Angeles County was let to Ben F. Dupuy of Los Angeles at $10,081. Six miles will also be oiled in Santa Barbara County by the Bradley Truck Company of Santa Maria.

Full speed ahead on grade crossings in an invitation to death. This was the warning issued by the Safety Conference of the California State Chamber of Commerce in announcing that during May a state-wide campaign is to be conducted to reduce grade crossing accidents. Failure to restrict speed at grade crossings and the disregard for warning signals, were responsible for the majority of the 2929 grade crossing accidents which occurred last year, officials said. Requesting the co-operation of all California motorists during the campaign, Safety Conference officials pointed out that section 113 of the State Vehicle Act restricts the speed of a car to fifteen miles an hour in traversing grade crossings of any steam, electric or street railway where the driver's view is obstructed. This law is being violated by hundreds of motorists every day, it was stated.

Bids for four highway units representing a cost of more than $200,000 has been opened by the State Department of Public Works at Sacramento. These projects were: Grading twelve miles, Colusa County, R. G. Le Tourneau of Stockton, low bidder at $139,326; paving one mile, San Diego County, Matich Brothers of Elsinore, low bidders at $38,118; grading eight miles in Colusa County, Frederickson & Watson Construction Company of Oakland, low bidder at $58,269; timber bridge, Monterey County, Dean Construction Company of Berkeley, low bidder at $24,246.

California reports a thriving business in fish eggs. Conservation officials announced that 28,5006,000 trout and salmon eggs had been harvested in various parts of the state. These will be hatched, nursed to maturity and then liberated in streams and lakes.

Construction of an air field adjoining the Associated Oil Company refinery at Avon will start immediately, it was announced by W. P. Hugo, refinery superintendent. Plans call for a 2,500-foot runway, 150 feet in width. The field will be open to all flyers, it was announced.

Repairs of the Nevada City library is being undertaken by the Women's Civic Improvement Club of Nevada City, which plans a series of entertainments to raise funds.

A modern theatre, costing in excess of $200,000, is to be erected at Porterville soon by the Fox Principal Theatres, Inc. The seating capacity will be 1,500. The completed plans will be released shortly.

The last obstacle in the path of the immediate use of $150,000 for new school construction at Colusa was removed with the sale of bonds for that amount to the American Trust Company of San Francisco.

Samuel Covina, founder of the city of Covina, Calif., died at the age of 75 when he became so overjoyed at the recovery of his eyesight that he fell out of bed. The fall injured the elderly man so severely that he died.

Organization of a Gridley Post of the United Veterans of the Republic was effected at a meeting of Gridley, Biggs and Live Oak veterans of all wars at Gridley. Ernest Weir, American Legion official, was chosen commander.

The California Supreme Court recently ended the three year fight of J. R. and George Mitchell to avoid paving their sidewalk. The city won the cse when it was fought in the Yolo County Superior Court and later in the appelate court. The Supreme Court had denied the Mitchells a new trial.

The West Side Land Owners' Association, recently organized at Firebaugh had given its approval to the Fresno County Supervisors' proposal for a bond issue for construction of a hall of records and a new jail for Fresno County. The proposal of the Mendota Chamber of Commerce to plant pheasants in its territory was also endorsed by the group.

San Francisco's convention year will start with sixteen conventions scheduled to be held there during May. The events, according to the San Francisco Convention Bureau, will bring between 15,000 and 20,000 visitors to the city. The largest convention will be the quadrennial general conference of the Seventh Day Adventist Church, will bring delegates from every country in the world, scheduled for May 20 to June 16.

Governor C. C. Young assured representatives of the Central Republican Committees of ten southern California counties that allocation of probably 500 miles of new secondary highways in the southern part of the state would be announced soon by the department of public works. Reviewing conditions that have caused increases in governmental costs, Governor Young said the 1930 census shows that California has been the fastest growing state in the union.

Expenditure of $100,000 in improvements on the Emilly B. Hopkins estate on Mill Creek, near Healdsburg, is contemplated by Osborne White, Honolulu millionaire planter, who recently purchased the property for $200,000. White plans to erect an eighteen-room residence and to construct a golf course, swimming plunge and other structures. White and his family have leased the home of Mrs. Joseph Shaw at Santa Rosa.

The Kettleman Independent Owners' League may launch a fight to compel companies owning natural gas pipe lines from Kettleman Hills to distributing points to furnish transportation facilities for independent producers. The committee will try to determine whether the pipe line owners, as public utilities, can be forced to carry independent gas and will also investigate the plan for conveyance of gas for agricultural uses.

Searching for gold with a radio metal-finding instruments of is own invention, C. H. Preston of Stockton struck pay dirt in the form of an early day safe. When the device registered, Preston dug down five feet and discovered the safe. It contained a number of documents and records of the M. & M. Mining Company, and a letter, dated October 26, 1852, from New ton Miller of San Francisco to his sister, Elizabeth Miller of Somerville, Mass. Preston's invention resembles a cross between a banjo and a radio set.

As a reward for twelve years' faithful and efficient service in Sequoia and General Grant national parks, California, Chief Ranger Guy Hopping upon the recommendation of the superintendent, Col. John R. White, as been promoted to the rank of assistant superintendent of General Grant National Park by the director of the National Park Service. Hopping will be in immediate charge of General Grant National Park, which will continue to be administered as heretofore from the Ash Mountain headquarters of Sequoia and General Grant national parks. He entered the National Park Service as a ranger at Sequoia National Park in 1918 and served in that capacity as well as chief ranger until 1928, at which time he was transferred to General Grant National Park as chief ranger in charge.

An answer to the condemnation suit recently filed by the Pacific Gas and Electric Company for right of way across the property of E. O. Sylvester has been placed on file at Sonora. Sylvester alleges that he has already suffered $14,000 damages through cutting of 142 valuable living trees. The company seeks a right of way thirty-two feet wide, extending from the Mono road northeasterly to Lyons Dam, for the construction of a high voltage line. Sylvester states that the tract has been surveyed and platted for homes and resorts, and the power line would greatly mar its scenic beauty.

A new industry has been started in Bell. The welding shop owned by F. M. Kaufman now being an establishment which is to manufacture gliders. One of the motorless aircraft is now under construction at the shop. This glider will have a wing spread of fifty-two feet and will be of the soaring type.

The first building to be erected by California for the insane is being razed on the State Hospital grounds at Stockton. The building, erected in 1852, had capacity for 860 patients. The structure was condemned four years ago.

How Popocatapetl Looks to the Airmen

An aerial view of Mt. Popocatapetl, famous volcanic peak rising 17,543 feet above sea level, 40 miles southeast of Mexico City.

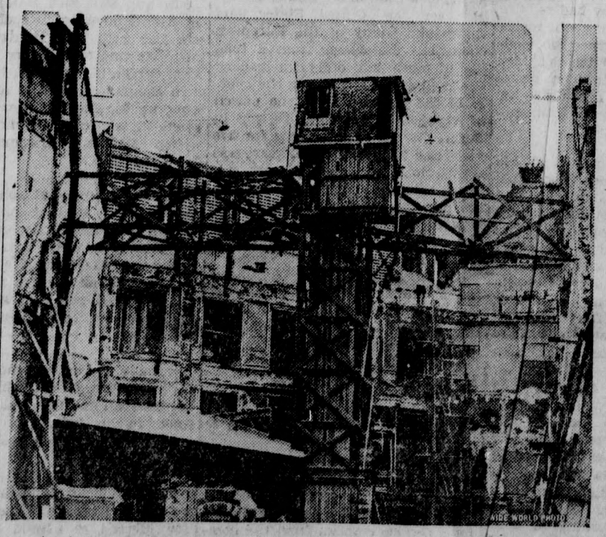
Disabled World War Veterans Making Buddy Poppies

In all the United States veterans' hospitals the boys who were disabled in the World war have been at work making buddy poppies for distribution by the Veterans of Foreign Wars during the week prior to Memorial day. The scene pictured above was in Hospital No. 67, Kansas City.

Study Traffic Conditions From Air

These men, judges and other officials of Chicago, made a flight over the city to observe traffic conditions during the rush hours, especially over the Boulevard bridge, the north side outer drive system and the Skokie valley district.

This Man's Home Was His Castle



An insurance company recently bought a Paris building to demolish it and on its site construct a new one, but met with the obstinacy of a tenant who would not move. He had a small shop and room on the sixth floor which made it necessary to erect a scaffold for the tenant until the construction should include his room.

GLENNA MADE PILOT

Miss Glenna Collett, captain of the American Womens' Golf team that is to oppose a picked British team in the first International Women's team match in England.

PILGRIMAGE BADGE

This is the badge to be worn by Gold Star mothers and widows on their pilgrimage to the cemeteries and battle fields of France. It was authorized by the War department and issued by the quartermaster's corps.

Cochrane Is Best Backstop

GORDON S. "MICKEY" COCHRANE is the best catcher of the age. Intelligent, fast as a rabbit, heavy-hitting, Cochrane goes a long way in giving Connie Mack's A's a big boost.

It is only his fifth year in the majors, but his work the last two seasons has made the above statement the truest dope in the world. A man who benches a catcher like Ralph Perkins is a real backstop. Of this there can be no doubt.

Mickey Cochrane.

Cochrane learned plenty at the University of Boston besides baseball, but evidently the latter is a natural penchant. His smartness behind the Athletic pitchers is undoubtedly responsible for much of their success.

Cochrane was called in from Portland of the Pacific Coast league before the start of the 1925 campaign. He has performed like a real pro for Mack ever since. The year he came up he hit .331, which is about his average this year. In 1926 he suffered his worst year at the plate when .273 was his best.

Mickey bats from the wrong side and worries the pitchers considerably—about as much as he eases his own twirlers when he catches them. They have no worries about men on the paths with Cochrane receiving them.

Cochrane is five feet ten and one-half inches tall and weighs 180 pounds.

Cap Anson's Philosophy on Baseball and Golf

Cap Anson was the author of the philosophy:

"I would rather play baseball than see golf, but I'd rather play golf than see baseball."

And that generally sums up the situation. In comparison with the 1,500,000 persons who watched the Chicago Cubs last year on the home field, nearly a billion played golf on the dozen municipal links, while on 44 fee courses more than 1,000,000 chased the rubber globule.

Add to this 2,000,000 on 155 private courses and the total is 4,000,000, or nearly twice as many as the combined Cub and White Sox attendance.

Many of the 2,000,000 who trooped into Wrigley field and Comiskey park last year were among the 4,000,000 golfers.

Refuses Pro Offer

Clarence Demar, forty-one-year-old Melrose (Mass.) runner, who won the Boston marathon for the seventh time, has declined an offer from Armand Vincent, Canadian sports promoter, to turn professional.

Scotland in Comeback in Trotting Handicap

Among the entries to the handicap trot at Kalamazoo and other Grand Circuit meetings is the black stallion, Scotland, 2:05, scheduled to stage a comeback after vacationing a year on a Kentucky farm. The son of Peter Scott, 2:05, is in the stable of Ben White, having spent the winter at the winter training camp in Florida, and will receive the final preparation for the 1930 campaign at the Lexington track.

Scotland was brought out when a two-year-old in 1927 by Tom Murphy and proved one of a great trio of star juveniles which raced that year, the others being the ill-fated Fireglow, 2:04, and Spencer, 1:59¾, the latter winning the Hambletonion Stake and Kentucky Futurity in 1928.

Takes 236,000 Gallons to Fill Harvard Pool

It takes 236,000 gallons of water to fill the larger swimming pool at Harvard and about one-third that amount for the smaller pool. The large pool is a regulation-sized affair with 14 feet of water at the deep end, 6 feet at the shallow. The pools are set in white tile with red stripes at the different distances while the lanes are designated by black lines on the floor of the larger pool. Diving boards are part of the equipment and the purifying system consists of three separate machines to insure the health of the swimmers. While the same water will remain it will be continually draining from the pools at one end, running through the purifiers and back into the other end.

Munn Is Ineligible

Clarence ("Big") Munn, member of the University of Minnesota football team, recently was declared ineligible for track competition until he clears up scholastic difficulties.

Sherman Finger, track coach, said that even if Munn were eligible, he probably could not make the team at this time since he still is bothered more or less with a knee injury suffered during the gridiron campaign of last fall.

Crisp Succeeds Wade

Henry G. Crisp, a member of the University of Alabama's coaching staff for ten years, has been selected to succeed Wallace Wade as athletic director when Wade assumes a similar position at Duke university September 1, 1931. Crisp, a 1920 graduate from Virginia Polytechnic institute, has been active as assistant line coach in football and basketball mentor. His cage team recently won the southern conference championship quite handily.

Sport Notes

Hy Crizovsky of Northwestern plays either infield or outfield and can catch and pitch.

Heiress and Newsboy "Hubby"

Society circles of America and England were stirred recently when Miss Vivienne Huntingdon, daughter and heiress of the late Charles Pratt Huntingdon, who has been residing in London, became the bride of A. C. Durban, a newsboy of that city. The wedding took place while the bride's mother was in Switzerland. Mr. and Mrs. Durban are shown above, honeymooning in Cheriton, England.

Perfection in Master Clocks

Washington.—In three airtight glass cases in Washington are the three master clocks which, of all clocks in the United States, run with the least variation. Maintained by and kept in the United States Naval observatory, they are the timepieces by which the nation lives, moves and has its being; they are the standard by which we set each watch and clock throughout the United States. Now, after many years, new clocks are to be installed in the observatory.

A Munich clock-maker named Riefler is the maker of the standard clocks now in use. Riefler's clocks derive their accuracy from the manner in which the pendulum is attached. In ordinary clocks the pendulum is attached to springs in the rigid clock frame. In Riefler's clocks, however, it is attached to springs connected to small tables which rock back and forth slightly. Electro magnets wind the springs every 30 seconds.

The new standard clocks which, according to Capt. C. S. Freeman, superintendent of the observatory, will be purchased soon include devices aimed at an accuracy superior to that of all other clocks. Known as "Shortt" clocks, they are constructed with the idea of freeing the pendulum of the job of unlocking the escapement. To do this, a secondary or "slave" clock is used which releases an impulse lever. Although the arrangement is complex, a high degree of perfection has been reached. The pendulum swings once every minute.

Taking care of the nation's timepieces involves an accurate care. The airtight cases holding them are kept in a double vault with automatic temperature control. Year in and year out the temperature in this vault is kept constant within one-tenth of one degree centigrade. Once a week the temperature vault is entered for inspection.

Any variation in the clocks is carefully recorded, since the hands are adjusted to the correct time only when overhauls are made—every four years Wires running to various parts of the observatory grounds make it possible to keep check on the ticks in the time room and in the various telescopes.

Father Sage Says:

Criticism of the styles doesn't change them. Reason: It is the young who follow and carry on the styles; and the young don't listen.

DIPPING INTO SCIENCE

Clams

Indians taught the Pilgrims the food value of clams, the ones used by them being the quahog, or hard shell clam, and is found south of Cape Cod. The soft-shell clam is also famous as food. Both are quite small as compared to the giant clam found on Pacific coral reefs, the shell of which may weigh 400 pounds.

(© 1930 Western Newspaper Union.)

LAST OF BRAVE BAND

Charles Lockwood of Chamberlain, S. D., 89-year-old Civil war veteran who, with the death of Peter O. Hall, 91 years old, of Atwater, Minn., became the lone survivor of the famous "Last Man's club." On July 21, 1886, thirty-three members of B Company, first Minnesota volunteer infantry, who had served side by side in the Civil war, organized themselves into a "Last Man's club." A bottle of Burgundy wine was purchased and each year the men assembled to drink each other's health. The original bottle of wine was not opened until three years ago when only three members were left. Peter Hall, who has just died, tasted it and the bottle was resealed. If Lockwood fulfills the original intent of the club, he will drink alone to his 32 departed comrades on July 21.

Makes Life Sweeter

Too much to eat—too rich a diet—or too much smoking. Lots of things cause sour stomach, but one thing can correct it quickly. Phillips Milk of Magnesia will alkalinize the acid. Take a spoonful of this pleasant preparation, and the system is soon sweetened.

Phillips is always ready to relieve distress from over-eating; to check all acidity; or neutralize nicotine. Remember this for your own comfort; for the sake of those around you. Endorsed by physicians, but they always say *Phillips*. Don't buy something else and expect the same results!

Softer

"What kind of tires do you prefer, balloon or high pressure?"

"I like balloons better, as a matter of fact."

"What kind of car have you?"

"I haven't any car; I'm a pedestrian."

Needs Doctoring

There are some families in this country who are so worried about their ancestors that they have to employ a family tree surgeon.—Life.

In thirty-six years the late Augustus Gordon wrote 84,913,920 words for the Logan (Utah) Journal, of which he was editor.

SOMETHING TO READ

By THOMAS ARKLE CLARK
Dean of Men, University of Illinois.

It was the Ancient Mariner drifting upon a wide and unknown sea, the hot sun burning him up, his tongue parched with a thirst that was unendurable, who cried out:

"Water, water everywhere, and not a drop to drink."

The eager soul, longing for something worthwhile to read, sometimes in these days of the making of many books, feels almost the same way as did the Ancient Mariner. There is a wide ocean of literature around one, but little of it that satisfies the thirst for what is wholesome and pleasant.

I stood before the counter of a great news stand in a railway station the other day gazing at the array of magazines on display. Scores of them, there were, with bizarre titles and flaming covers. I had never before realized that there were so many magazines in the world. A new one seems to be coming out every day. I picked them up and opened the pages one by one. Cheap, morbid, melo-dramatic, badly written most of them. One comes away from the reading of them with a bad taste in his mouth. The time spent in reading them is mostly wasted time.

There is a great flood of reading matter surrounding us these days. The Sunday newspaper, for illustration, bought at your door for a dime, covers a hundred pages or more, and yet when you are through with it you often ask yourself where you have gotten?

You will recall that Lincoln walked miles to borrow a book a hundred years ago or so, but when he got it, it was something which stimulated his ambition, fired his courage, set for him a goal in life, and made him happier. Much that is read today does none of these things for the reader.

Henry Van Dyke, in an introduction to the poetry of Tennyson written a good many years ago, says in speaking of the purpose and influence of poetry, that it is "to convey to the mind a message which shall lift him up above himself and make him not only happier but better. . . . And only of those men who can bring a meaning into life, touch it with glory and link it to immortality, will the world say, 'These are my great poets.'"

It is this same function which literature should perform, I believe. We should be better prepared for the common every day tasks of life from our reading of fiction and biography and philosophy. Reading should make us more cheerful, give us greater courage, higher ideals, more definite purposes, stronger ambition. It should make us more sympathetic, more refined, more sensitive to beauty, better and broader and more thoughtful men and women. If it does not do some or all of these things, it has fallen short of its best purpose.

Could anyone read "The Newcomes" without being uplifted by the character of the old colonel? Stevenson gives us romance. Scott stimulates us to adventure, George Eliot shows us the value of sacrifice. I never read the biography of Andrew Carnegie without realizing what courage and determination and hard work can accomplish. It is such books as these that we should read but only too few of them are written today.

(©, 1930, Western Newspaper Union.)

IN POPULAR TWEED

Here's a pretty tweed dress for spring. It is made with a semi-fitted bodice, trimmed with buttons. The skirt is circular and of medium length.

Motive for Murder Remains Mystery

Ottawa.—With the self-confessed slayer already under arrest, police are still seeking to unravel a web of mystery which shrouds the death of Mrs. Olga James, nineteen-year-old bride of Reginald James.

William Neilson, sixty-one, has confessed that he strangled the young woman in her home, leaving a note to her husband as follows:

"This is your dirty work, that you have done on me. It may be a lesson to you not to treat any other man that way. You got this woman to play the most rotten game she could play on a man. Now see what you have done."

But Neilsen, although admitting the crime, still maintains silence as to the motive which prompted him, and refuses to explain the note which he left. The slayer, a painter by trade, was employed in decorating the James home last fall, just after James and his bride had moved into it. He still retained a key to the front door, police state, and effected an entry in this way.

James discovered his wife dead when he returned home for lunch. She lay in her bedroom, still in her nightdress, a six foot length of cord from a window sash weight knotted around her throat.

Neighbors told of having seen an elderly man enter the James home soon after the husband had left it in the morning. The contractor who had built the home stated that the description fitted Neilson, one of the painters who had been engaged on the house. Police arrested Neilson, a widower, at his rooming house, and found bloodstains on his clothes.

Mrs. James was well known in Ottawa's younger social set, being the daughter of Edward Nelson, secretary-treasurer of the Ottawa Institute for the Blind. Her husband is employed by the Ottawa Electric Railway company.

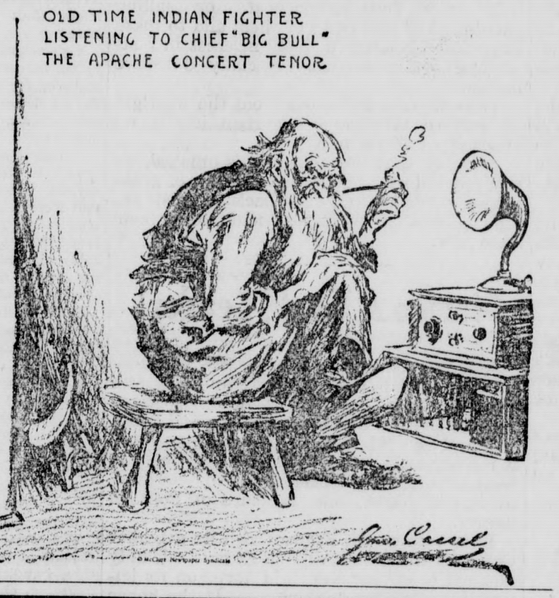
The Modern Redskin



Man Loses Arm in Peculiar Accident

Biddeford, Maine.—Victim of one of the most mysterious accidents ever reported to local authorities, George Thomas, twenty-five, of Winchester, Mass., lies in the Trull hospital here. Driving through the town of Wells with Aubrey Stott, Winchester, and Albro McCullough of Malden, Thomas lost his arm and he doesn't know how he did it.

The three were near the post office and store at Moody in the town of Wells, when they met a large truck. Soon after the machines passed each other, Thomas remarked to his companions that his left arm felt numb. They halted by the roadside and when he turned around he discovered that his arm was gone, while blood was pouring from the stump near the shoulder. The arm had been severed as cleanly as though shaved off with a huge axe with razored edge. Stott and McCullough, who could scarcely believe what they had seen, jumped from the car, began to look around, and going back a short distance they found Thomas' arm lying in the road.

Although bleeding profusely, Thomas continued to drive until they reached the store and there was given first aid by a physician before being brought to the hospital.

Examination of his car here showed that the door handle on the left-hand side was missing and it is believed that some very sharp projection on the passing truck struck Thomas, though he declared he felt no blow.

Daddy Still Pondering About Buying That Baby

This little miss was quite young, as may be seen from this true story. Neighbor friends had a new baby in which she was keenly interested. She ran in to see it as often as she could and she kept telling the fond parents that she wanted one, too.

One day she came home in a state of high excitement.

"Mamma," she called, "have you got a dollar?"

"No, my dear," her mother said, "I haven't got a dollar. What do you want a dollar for?"

But the child would not tell, although she kept insisting that she wanted a dollar very badly.

"Then you'll have to ask your daddy," said her mother.

But daddy insisted on knowing all about it and finally the story came out.

"I told 'em," said the child breathlessly, "that I wanted a little baby just like theirs and they told me there was a place up street where I could get one for a dollar down an' a dollar a week. Now come along with me quick, daddy, an' let's get one. And you know it's just wonderful. If you pay your dollar down and then don't pay your dollar a week they won't take your baby away from you because they're glad to get rid of it."

Daddy is now trying to think of a good comeback for his neighbor friends.—Springfield Republican.

Justice fails in this country chiefly because jurisprudence has provided so many hurdles and handicaps for it

Hubby Not Doing More Work; Less to Be Done

Professors can grow interested in almost anything. Now one tells us that he has learned that men are doing a greater proportion of housework than they used to.

If husbands are becoming of some practical value in the home it will be a great thing for America. But there is a suspicion that the professor's angles are slightly distorted.

It isn't that men are doing more of the home work. It's the wives who are doing less. They are taking their meals out or living in apartments in which domestic life is at a minimum.

Housework used to be a standard occupation—in fact, a career. Now it is an incident or a joke. There are so many electric or mechanical devices in the home these days that about all that is required of the housewife is the ability to push a button or turn a switch.—Los Angeles Times.

If the next war is "humanized," there will be no spiral putties.

Kill Rats Without Poison
A New Exterminator that Won't Kill Livestock, Poultry, Dogs, Cats, or even Baby Chicks
K-R-O can be used about the home, barn or poultry yard with absolute safety as it contains **no deadly poison.** K-R-O is made of Squill, as recommended by U.S. Dept. of Agriculture, under the Connable process which insures maximum strength. Two cans killed 578 rats at Arkansas State Farm. Hundreds of other testimonials.
Sold on a Money-Back Guarantee.

The Gubernatorial Race

By D. E. O'KEEFE

The gubernatorial contest is fairly launched and the contending foes are Mayor Rolph of San Francisco, Governor C. C. Young and Buron Fitts, the Los Angeles district attorney. The campaign, from present indications, promises to be the bitterest and the most energetic and exciting in the history of California. All the candidates have large followings. A bitter war will be waged for supremacy.

The popular mayor, James Rolph, Jr., has the edge on the contest as he has a strong following in every portion of the state, including the bailiwick of Fitts, Los Angeles. There he is quite popular with the voters and the people generally. His friends declare that he is liable to carry the southland by a substantial plurality. He certainly will sweep the northern counties of the state and receive a big vote in all the bay counties. Mr. Rolph is loved by all who know him and they are sure he will make as good a governor as he has made a mayor of the growing city of his birth, San Francisco. He has done more for San Francisco while mayor than any other man within its confines. The city has grown and prospered under his wise and progressive administration. The state with Rolph as governor, will advance as it has never done before. The voters want an executive of his progressive ideas and economical system.

Rolph is a whirlwind campaigner of the Jim Budd type. He will set a pace that will amaze his rivals. They will be unable to keep up with him. Mayor Rolph is certain to reach the goal on August 26 with a definite vote.

San Mateo county has already joined the Rolph band wagon and is organizing clubs for him. The voters are making an effort to have San Mateo county the banner Rolph district. His vote here will be overwhelming. His friends are so sanguine that they are placing his plurality at ten thousand. This is a high figure but the Rolph sentiment in the county is so great that it would not be surprising that that high figure would be reached.

From what we can learn at this period of the campaign it looks that Mayor Rolph will be the next governor of California. All public sentiment points that way.

Establishing A New Fire Record

Recently the National Board of Fire Underwriters issued a summary giving the causes of the greatest fire losses in each state in 1928. In 19 states cigarettes, cigars and matches were responsible for a majority of the waste; in 11 states, defective chimneys and flues; in five states, boilers, furnaces and the like; in two states, sparks on roofs, and in three states, misuse of electricity, oil products and spontaneous combustion.

A little care in disposing of matches and cigarettes; frequent inspections of chimneys, flues and electric wiring, and careful storing and handling of gasoline on the part of American citizens, would greatly reduce our fire loss almost overnight.

During March, the total estimated loss was $42,964,392, representing an increase of $1,686,578 over the same month last year. And the loss during both January and February was appreciably in ecess of the loss in 1929. If the present trend continues, 1930 will probably see the establishment of a new high record for fire waste.

Must we admit that we, alone among the world's great nations, are so careless or incompetent that fire is beyond our control?

Mumbling Our Words

Are Americans falling into the habit of mumbling their words? Trained public speakers, teachers, and many citizens who give particular attention to enunciation and pronunciation are easy to understand, but there are tens of thousands of people who popularize the word "what" by miss-speaking their words.

Plain speech is very important to telephoning, and a lot of people who get the wrong numbers might have better luck if they pronounced their words with as much force as they voice their complaints. Recent investigations of telephone conversations, in which 80,000 words were noted, showed that only 2200, or less than three per cent, were different words. Ninety-five per cent of these conversations were carried on in 700 words.

Bernard Shaw is reported to have said recently, "People drop their vowels and syllables and everything else, and at the present time just make a noise. How on earth they make themselves understood to each other is difficult to know. It is pure laziness, but the language fortunately is being preserved by telephone operators and wireless announcers who have to be distinct and articulate."

We Dizzy Americans

Americans, and especially those who reside in our metropolitan areas, are in danger of becoming a race of neurotics, in the opinion of leading neurologists.

Nerve-wracking noise, the hustle and bustle of modern business, the dodging of vehicular traffic and a hundred and one other appurtenances to present day modes of living—all of them are consolidating themselves in a program of human destruction that rapidly grows worse with each succeeding day.

The modern city dweller keeps late hours and does not get sufficient rest. Instead of partaking of a leisurely luncheon, he grabs a sandwich and dashes away to close another big deal. In the morning, he gulps his breakfast and runs for the 8:15 or the subway. On nights when he is not obliged to make the opera, the theatre or meet some other social obligation he might partake of a leisurely dinner—but not any too often.

Further evidence that this general neurotic condition grows worse is furnished by the figures which show a constant increase in the consumption of cigarettes, coffee, tea, alcohol and other stimulants.

There seems to be no basis for expecting relief from this widespread condition of neurosis. The pace set in modern business was created by the men so engaged. The pursuit of the dollar must go on, probably with increasing rapidity. Those who would relax in the interest of their health must sacrifice some of the so-called luxuries of life. And this, a majority are unwilling or too thoughtless of their own welfare to do.

In the midst of all this, there are numerous ways of avoiding some of the ills of the situation and an increasing number of business men are availing themselves of them. A simple diet with a minimum of starches and sugar is nearly always resultful of benefits. Many executives, surgeons and other busy men have couches in their offices on which they are able to snatch short rejuvenating naps between appointments. Those who love coffee, but not its effects, indulge their tastes without damaging their nerves by drinking coffee from which the caffein has been scientifically removed but the flavor left intact. Great numbers of them have crossed Saturdays from their list of summer working days and spend that time gathering health and peace of mind in their gardens, on the golf links or on their motor boats or sailing yachts. And still more of them add to these forms of relaxation a lively interest in fast-moving fiction stories, especially detective novels.

Thus there are escapes from the whirlgig of modern urban and suburban life if we choose to seek them.

And now that this comment is finished, we will proceed with our regular routine of grabbing a sandwich and rush back to finish another before press time—about one hour from now.

Mexico A World Leader!

While in old-world London the Commissioners of five nations are quibbling and dickering over "parity", or due proportions of guns and tonnage in battleships and cruisers, and the HUMANE use of submarines, it is very refreshing to know that one, at least, of our New World nations is showing, by acutal deeds, some measure of Political Sanity.

In the old world, France, with its neighbor Germany dis-armed, and all Europe solemnly pledged to outlaw war, still harps on its imperative need for "security." If the honor of every nation thus pledged does not constitute "security" what would any further pledge amount to?

The New World a century ago, in one notable instance, adopted a better security plan —dis-armament rather than armament. All nations know that on our dis-armed northern frontier neither neighbor nation has drawn a sword or fired a gun in over a 100 years.

Today a lesson comes to the world from our southern border. The new president of Mexico, Portes Gil, has reduced his army from 90,000 men to 60,000 men because the atmosphere along the border has changed from hostility to amity. He affirms that friendship offers greater security than force of arms, and he proposes to spend the money, heretofore used to maintain that third of the army, for education and good roads.

Evidently Mexico assents to the motto "Build Friendships! Not Battleships!"

Force of arms has surely sought in vain to bring "security" to any people; possibly a universal agreement to refer all disputes to decision of Justice, rather than Force, might avail to rid the world of the arrant idiocy and wanton waste of War.

So more power to the International Court of Justice! And thanks to Mexico!

—Edward Berwick
Pacific Grove, Calif.

The Old Time Village

The automobile, the movies, and other factors in American life, has completely changed the style of the American village, just as it has revolutionized our cities. Mark Sullivan, well-known Washington correspondent, writes that "the-old-time American village in the literal sense is no more to be re-created than the snows of yester-year. Whoever in future years wishes to look upon one will need to travel to Dearborn, Michigan, and will have to thank Henry Ford, who has had the happy inspiration to set up, in a museum sense, a genuine old-time village in the form that was familiar at the time of Ford's boyhood."

Gifts With A String To Them

Advertising that contains an offer of the words "free" and "give" and which are not backed up by merchants as a genuine gratuity are held to be unfair by the Federal Trade Commission at Washington, which has forbidden business concerns from using this class of advertising.

School Report Indicates Big State Growth

School Costs for Year Are $2,063,007 for County

By ELWOOD SQUIRES
(United Press Staff Correspondent)

SACRAMENTO, May 14— (UP) — Rapid advance in California's famed education system is found by Vierling Kersey, state superintendent of public instruction, according to his annual prograss report.

"In 1929, San Mateo county spent $2,063,007 on its schools," Kersey said in the report, "and it is to the citizens whose taxes made up that amount that I am submitting this survey.

"It is not to be considered a complete statement of accomplishments, nor is it to be considered as proof of perfection in our schools. This is simply a statement of the wholesome, progressive characteristics of state advancement in California education."

Surprisingly rapid development of kindergarten education in California is noted by Kersey in the report. Approximately 50 per cent of all children of kindergarten age are actually enrolled in the more than 1,000 kindergartens of this state.

"Kindergarten teachers show a higher percentage of professional training than the teachers of any other division of our public schools," Kersey commented, "with 99.3 per cent having graduated at least from a teachers college."

California's elementary school program has advanced to the point, where practically all children in the state, of elementary school age, are either in public schools, or exempt because of equivalent private school or tutor instruction, Kersey reported.

"The junior high schools now number 153 in California, enrolling 100,000 pupils," the superintendent said. "This innovation is increasing in its success and has resulted in many children remaining in school for at least one year, and frequently longer than they otherwise would have."

High school graduation has come to be the standard of educational ambition for the youth of California, Kersey declared. High school education is available to every child at public cost.

"Subjects are offered in the high schools to meet needs of children of varying interests and aptitudes," said Kersey. "This has drawn and kept in the high schools increasing proportions of children. It is reliably estimated thaet well over 80 per cent of children of high school age are enrolled in these schools."

Strides taken by the junior college system of California are pointed out with pride by Kersey, who said:

"Through the most advanced system of junior colleges in the nation, California is offering advanced secondary schooling to over 15,000 students. Recent trends in the junior college movement augur a continuance of the present period of expansion of this system. Eventually this advanced education will be available to all who desire it."

The report concluded with a resume of progress in adult education, handicapped individuals, and migratory children.

How to Play BRIDGE

Series 1929-30 by Wynne Ferguson
Author of "PRACTICAL AUCTION BRIDGE"

Copyright, 1929, by Hoyle, Jr.

ARTICLE No. 30

There always is a chance for an argument when Bridge players get together, as to whether the bidding or play is the more important. As a matter of fact, such an argument is hard to settle. In some hands the bidding is obviously more important than the play; yet in others the bidding is simple and easy and the play difficult. Here are two example hands where the bidding was uncontested and yet the play proved most difficult:

Hand No. 1

Hearts — 10, 7, 5, 3
Clubs — A, 9
Diamonds — K, Q, 4
Spades — J, 8, 5, 3

Y
A B
Z

Hearts — A, Q
Clubs — J, 10, 7, 6
Diamonds — J, 2
Spades — K, Q, 10, 7, 6

No score, rubber game. Z dealt, bid one spade and all passed. A opened the ace of diamonds, Y played the four, B the trey and Z the deuce. A now led the five, Y played the queen, B the seven and Z the jack. How should Z now plan the remaining play of the hand? Before reading further, figure out what you would do, before you read the solution.

Solution: At trick three Z should lead the king of diamonds from Y's hand and discard the queen of hearts from his own hand. At trick four, Z should lead the ace of clubs from Y's hand and at trick five follow with the nine of clubs. One of the opponents will win this trick and should lead a trump at trick six. Whichever opponent has the ace of trumps should win the trick (No. six) and return the trump (trick seven). Z will win this trick in his own hand and at trick eight will lead a club, trumping in Y's hand with a low spade. At trick nine, Y should lead a low heart, winning the trick in Z's hand with the ace of hearts. Y Z must now make the next four tricks with the queen ten and seven of spades in Z's hand and the jack of spades to trump Z's losing club in Y's hand. The hands of A and B were as follows:

Hearts — K, J, 9, 6
Clubs — 5, 4, 2
Diamonds — A, 10, 8, 6, 5
Spades — 9

Y
A B
Z

Hearts — 8, 4, 2
Clubs — K, Q, 8, 3
Diamonds — 9, 7, 3
Spades — A, 4, 2

If at trick three Z should lead a trump, he cannot go game. B should allow him to win the first spade trick and, when B later takes the lead on the second round of clubs, he should lead the ace and a low spade. (Or if Z continues spades, B should win the second trump trick and return spades.) Y's hand will thus be able to trump clubs only once and B must, therefore, make another club trick. Note this hand carefully and the reason for not leading trumps. Z has no set-up suit and no reason to lead trumps. On the other hand, he has two losing clubs and the only way to convert them into tricks is by trumping them in Y's hand. To do this, Z must conserve his trumps, not lead them.

Hand No. 2

Hearts — K, Q, 5, 4
Clubs — A, K, 7
Diamonds — A, 7, 5
Spades — J, 9, 3

Y
A B
Z

Hearts — J, 10, 7, 2
Clubs — 10
Diamonds — Q, 6, 4
Spades — A, Q, 10, 8, 4

No score, rubber game. Z dealt and passed. A passed, Y bid one no trump and B passed. Z now bid two spades, all passed and A opened the trey of diamonds. How should Z plan the play of the hand from now on? The reader should decide what he would do and how he would play the hand before reading the solution that follows:

Solution: Z can afford to lose three tricks. He will still score game. These tricks are one heart, one diamond and one spade. If he loses more than these tricks, he will lose game, therefore his play must be so planned that he will lose these three tricks and no more. His play at trick one, therefore, must be such that he cannot lose more than one diamond trick. If A has led from five diamonds, B holds only two, one of which probably is the king. A would hardly lead away from the king of diamonds for such a lead is one of the worst that can be made against a declared suit. If B has only two diamonds to the king and Z passes the first diamond, B will win the trick and return the suit. Then if Z finesses the spade and A has the king, he can give B a ruff with the third diamond. Played in this way, Z would lose four tricks, one in hearts, one in diamonds and two in spades. Z's proper play at trick one, therefore, is the ace of diamonds from Y's hand. He should then lead the ace and king of clubs and on the second club lead he should discard the six of diamonds. He should then lead the jack of spades and, if B doesn't cover, he should finesse. If A wins this trick and leads diamonds, B can score the king of diamonds and no more for Z can overtrump him on the third round of the suit. The hands of A and B were:

Hearts — A, 9, 6
Clubs — Q, 9, 4
Diamonds — J, 10, 8, 3, 2
Spades — K, 7

Y
A B
Z

Hearts — 8, 3
Clubs — J, 8, 6, 5, 3, 2
Diamonds — K, 9
Spades — 6, 5, 2

It should be evident, therefore, that unless Z had taken his diamond discard before his finesse in spades, A B would have made four tricks and so saved game. Be on the lookout for hands of this type and learn to count your tricks before you play to the first trick. Many a time will you save game and rubber by so doing.

Foundation of Health

Establish your health on a firm foundation and it will withstand the strain and stress of every day life and carry you safely and happily to a ripe old age. We refer to the Chiropractic way; the science that means well being without resorting to drugs. We shall be glad to go into particulars if you will honor us with a call any time.

LOW FARES EAST MAY 22 ON ALL RAILROADS

Enjoy the thrill of crossing Great Salt Lake by rail

but only Southern Pacific offers this choice:

FOUR GREAT ROUTES East. Go one way, return another, and double the enjoyment of your trip. Even at these low fares you can, for example, go East over the OVERLAND ROUTE, direct across mid-continent, and return via the SUNSET ROUTE, through New Orleans and Los Angeles. Or, one way, enjoy the GOLDEN STATE ROUTE, Los Angeles-Chicago; the SHASTA ROUTE (slightly higher cost) through the Pacific Northwest.

On Southern Pacific you'll find through Pullmans to many more destinations than on any other railroad. You have 14 Great Trains to choose from. Extra-fare leaders, of course, but others with comfortable chair car or tourist sleeper accommodations that save you money.

Your agent will gladly help you plan.

Examples of low roundtrip fares from main line points, on sale May 22 to Sept. 30. Return limit Oct. 31:

ATLANTA	$113.60
BOSTON	157.76
CHICAGO	90.30
CLEVELAND	112.86
DETROIT	109.92
KANSAS CITY	75.60
MEMPHIS	89.40
MINNEAPOLIS	91.90
NEW ORLEANS	89.40
NEW YORK CITY	151.70
WASHINGTON, D.C.	145.86

Through Northwest, slightly more

Low Summer Fares to Pacific Coast points in effect May 1.

Junior College's Electric Heater Suit Reversed

The controversy between the San Mateo Junior College district and A. Strauch, electrical contractor, was ended this week, when the school was ordered to return electric heaters to the latter which had been installed in the junior college building. The order was issued by the district cout of appeal in San Francisco, and is a reversal of the judgment rendered by Judge George H. Buck in the superior court here, by which the school district was ordered to pay for the heating equipment.

The trustees of the district refused to honor the claim of the electrical contractor, on the ground that the contract had been let without the calling for bids, and that Frank Thrall, at that time clerk of the board, was interested in the concern supplying the equipment.

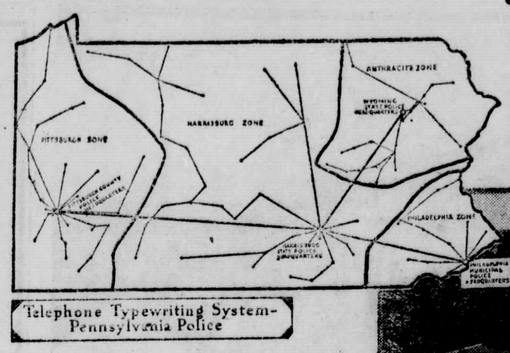
Catching Criminals in Keystone State Made Easier by New System



Telephone Typewriting System—Pennsylvania Police

Operating the Sending Instrument State Police Headquarters, Harrisburg

CRIMINALS within the State of Pennsylvania have recently received a crushing blow with the installation of a new state-wide telephone typewriter police system, comprising the most perfectly coordinated police communication system in the world. By means of expert engineering the system links together, in one big crime-thwarting network, 95 towns and cities and 100 locations within the State of Pennsylvania. The system uses 110 machines and operates over 3,427 miles of telephone circuits.

With this new system it is only a matter of ten minutes before the machines have tapped out all the available information regarding a crime to the four zones into which the state has been divided, and a network of police, state and municipal, has blocked all possible means of escape and stands ready to tighten the net on the criminals.

Service is maintained on a twenty-four hour basis and utilizes what is known as page-type equipment. This equipment, consisting of one regular and one emergency sending and receiving instrument and a telephone typewriter switchboard is located at Harrisburg, Philadelphia, Pittsburgh and Wyoming. There is also one page-type instrument for the receiving station located at each of the Zone Headquarters and three page-type receivers at the Central Headquarters. All of the other stations throughout the state are equipped with receiving-only machines.

Nine main channels of communication radiate from Harrisburg to various parts of the state, so that messages can be sent simultaneously from Harrisburg to all locations in the system or, if desired, to locations on any one or more of these main channels.

Branch channels radiate from each of the Zone Headquarters so that any of these points can send to all the locations in its own zone. The channels between Zone Headquarters and Central Headquarters are arranged for two-way simultaneous service.

The telephone typewriter makes it possible for a state trooper at the sending end of the system in his Headquarters, located at Harrisburg, to sit down at the machine, connect the stations he wishes to receive his message, and typewrite a message, on the machine before him, which will be instantaneously received upon the receiving machines which he has connected, without regard as to the distance involved.

Let us suppose, for example, that a crime is committed in Lock Haven, Pa. Lock Haven is a small town located in the central part of the state. A trooper telephones the details of the crime to his Zone Headquarters, which, in this case, happens to be Harrisburg. The office in Harrisburg immediately dispatches the information to all points within the zone, and if of sufficient importance, it is sent over the other channels to various parts of the state. Thus, matters of general interest from the State Police Department at Harrisburg can be sent from that point to all other points in the system.

An interesting feature of the plan is that much closer cooperation between State and Local police is possible under this new system of communication. This is brought about by the fact that the majority of telephone typewriters have been placed in Municipal Police Headquarters, making the state-wide crime news as readily available to Local police as to the State troopers.

The system, installed by the Bell Telephone Company of Pennsylvania, represents the cumulative achievements of the State Police, the Pennsylvania Police Chiefs' Association and others who, for several years, have been cooperating in the preparation of plans for the establishment of a communication system to expedite the transmission of vital crime information.

Menlo Park

Young People of Church To Present Play In Social Hall, May 21

The young people of the Presbyterian Church at Menlo Park will give a play, "Renting Jimmy," in the new social hall next Wednesday evening, May 21. An interesting and humorous situation of a young woman renting her beau to the other girls of a girls' college is portrayed in the play. The very popular price of 35c for adults and 20c for children will make this a very attractive entertainment. The young people taking part are the Misses Evelyn Wild, June Acord, Dorothy Bassett, Esther Bearce, Tamaki Nao, Jennie Jacobsen, Helen Aabel, Sarah Marie Chapman and Mr. Everet Mullins; Miss Cecile Wathen, prompter; Mr. Harold Wild, property man; Mr. Fred Johnson, stage manager. The program is as follows:

Overture—Orchestra.
Ladies Trio.
Cornet Solo—Everett Mullins.
Monologue—Sarah Marie Chapman.
Vocal Solo—Lulu May Chapman.
Act 1—Play.
Interlude—Orchestra.
Act2—Play.
Postlude—Orchestra.

The Ladies' Auxiliary will meet in the new social hall on next Thursday afternoon, May 22.

The city council met in regular session Tuesday evening, all members being present.

A communication from the Parent-Teachers' association of the Central school and Fremont school was read, commending the members for efforts in starting the movement for an underpass under the highway at the Central school. Both associations invited the council to participate at the exercises in honor of Fathers' Night, at the Central school auditorium, on the evening of May 29. The drama, "The Masked Lady" will be presented by the parochial school players. An interesting program is to be presented in addition to the play. The invitation was accepted.

Mr. Gurnsey addressed he council concerning his application for a building permit for a building on Middle avenue, about which so much discussion was had some time ago.

Gurnsey said that a foundation had been laid for the structure, but that it was not acceptable to the former council. He wanted some understanding in the matter. City Attorney Whitworth said it was a question of whether the foundation was put down below the regular surface or a raised surface, that complied with the ordinance. This was a matter for the council to determine. Gurnsey said that the foundation in other buildings in the neighborhood were put down in the same manner. Building inspector Weeden agreed to have engineers see the work and would report at the next meeting of the council. Blake questioned the authority of Weeden as building inspector. Blake subsided as the chair called him to order.

The mayor then read the auditor's report of the finances of the city. The books were audited by Lawrence Sutter & Company, L. T. Diebels, local representative. The report showed that during the past ten months the sum of $12,318.33 was disbursed from the general fund and the receipts to be $6,590.76. Street fund receipts, $,856.50, expenditures $785.20. Balance on hand, $5,939.39. Fines collected in that time amounted to $4,856.50; licenses collected, $2,856.50. The report was placed on file.

Mayor Weeded reported that the Bear Gulch Water company would complete the installation of pipes in Stanford Park by May 25.

The planning commission will meet with the council on Tuesday evening, next. It was reported that two vacancies existed on the commission. The vacancies will be filled later.

City Attorney Whitworth brought up the matter of cutting weeds and grass on vacant lots. After some discussion it was agreed that the chief of police would visit the properties where this nuisance existed and send them a notification in the form of a card, telling them to do the work of cleaning up at once or the city would do it and charge it against the property. From the curb line to the street is to be cleaned at the expense of the city. Blake referred to a garbage nuisance on the main street. The matter was referred to the health officer.

Anderson, the street commissioner, was given $15 to repair a manhole in Stanford Park.

The mayor presented a bill from City Engineer George A. Kneese, amounting to $2,711.01, for work in preparing resolution 29-1, surveying, fees, etc. The claim caused a wide discussion. Weeden told the council that Mr. Kneese agreed to remit the bill if he were retained as city engineer. Much of the work done by Kneese in the proposed street work in Stanford Park, could be saved in future improvements in that locality, and thus would be repaid for his services. Crane tought the explanation by Weeden was a threat, and at once moved to declare the office of city engineer to be vacant. The motion failed of a second. Blake thought the matter should go over for investigation. Weeden was in favor of referring it to the auditing committee. Dale favored postponement. The discussion was quite sharp and pointed but finally, on motion of Dale, seconded by Blake, the bill was deferred for two weeks so that Mr. Kneese could explain it.

The council adjourned to May 27.

Samuel M. Shortridge, Jr., and George Murray, delegates to the parlor N. S. G. W., that convenes at Merced next Monday, will leave here on Sunday morning next. Shortridge is a candidate for grand trustee and for some time has been campaigning for the place. It is conceded that he will win, as many candidates have retired in his favor, making his position safe for election. Accompanying them will be the popular postmaster, Bernard Larrecou, who will act as floor manager at the grand parlor for Shortridge. The fight in the convention is to be managed by A. S. Liguori of Redwood City, who has attended all parlors for thirty years. He is a power in these gatherings, as he is personally acquainted with nearly all the delegates. Shortridge feels so sanguine of success that his many friends are launching a boom for grand president, three years hence. All parlors of the bay counties are behind Shortridge in his aspirations.

Last week Postmaster B. Larrecou was reappointed to that post for another four years. Mr. Larrecou has held the position since 1922, filling it with distinction and with credit to himself and to the government. The appointment was made by Senator Shortridge and confirmed by the Senate.

A large communion class will receive holy communion at the 8 o'clock mass, in the Church of the Nativity, Sunday morning. The children have been receiving instructions for some time, for this, their first holy communion. The parents will accompany them to the altar.

A clock for the city hall would be an acquisition that would be appreciated by the public. The present council is very ecnomical but we think the clock is a necessity, and as Senator Shortridge would say "Necessity knows no law," the council would break no ordinance in providing the time piece.

Chief Love and his officers on Wednesday night arrested ten autoists for speeding through town. Many of the drivers were going at the rate of 60 miles an hour. Such violators of the law ought to be severely punished. Fifteen miles an hour is regulation through town. Any faster endangers the lives of the pedestrians.

Chief Love received a letter yesterday from Henry Hedwighoucheid of Germany inquiring for the whereabouts of his sister, Mrs. E. Sturmer, who last heard of was living here. The chief located the woman at once and told her the story of her brother's inquiry. She had not heard from him in years. She immediately communicated with her long forgotten relative.

Mrs. Jay T. Cooper, president of San Mateo County Federation of Women's Clubs, will attend the State Federation meeting to be held in Oakland this week, commencing Wednesday. Miss Stella E. Ely, president of the Menlo Park Study Club; Mrs. E. Gardner and Mrs. F. I. Kurtz will also attend the convention as delegates of the local club, one or more days.

James Wood, the retired turfman, has returned to his home in Menlo Park after a visit of two weeks with his daughter, Mrs. J. Fahy of Portland, whose husband passed away recently. Fahy was a noted ball player of Oregon. For twenty-five years he had been in the hotel business in Portland. His early career as a ball player gained him many friends in the north. Mr. Woods at one time owned one of the best stables of fast horses in the state. In their time his sons were the best jockies of the country, one of them rivalling the noted Tod Sloane.

Judge Patrick this week married two couples. It was his first experience at marrying but he went through the ordeal in fine shape. He waived his prerogative of kissing the bride, although one of them was quite kissable. Which one?

The admirers of James Rolph Jr., a candidate for governor, will hold a mass meeting in one of the local halls to be designated later, for the purpose of organizing a Rolph Club and electing officers. This meeting will be an open forum, where all are invited to come and express their views on the issues of the campaign and outline a plan of organization that will redound to the benefit of the popular mayor. Menlo Park will give Rolph a large vote but there must be strong organization of members who will work in harmony and in unison for the best interests of Mr. Rolph, who looks to Menlo Park to give him a substantial vote next August. Handbills next week will announce the time and place of the contemplated meeting. It is to be hoped that a packed house of Rolph admirers will greet this call.

WOODSIDE

The Woodside-Atherton Garden Club held its exhibition on Friday afternoon last at the home of Mrs. Selah Chamberlain. The showing of flowers was unusually attractive and attracted many visitors. Prizes were awarded for various kinds and arrangements of flowers.

Miss Katherine Donohoe was in charge of the exhibition and Mrs. Samuel Eastman was chairman of the committee of arrangements. Mrs. Selah Chamberlain is president of the Club, Mrs. George Lent is vice-president, Mrs. Forbes is treasurer, and Mrs. Stewart Elliott is secretary.

Mr. and Mrs. William Wallace Mein and family who have been abroad since last fall, left Cape Town on May 9th for London. They have been visiting Mrs. Mein's brother, Mrs. Alpheus Williams at his home in Kimberly.

Miss Barbara Pond will graduate next month from Vassar College and will return to her home in Woodside. Mr. and Mrs. Pond will go to Poughkeepsie for commencement week.

Mr. and Mrs. Daniel C. Jackling arrived at their home here last week after a long absence in Europe and aboard the Jackling yacht in the Mediterreanean and European waters.

The Portola Social Club are offering a card party at the school building on Saturday night and at Woodside the Parent-Teacher Association is planning a card party for Friday night, the 23rd of May.

At the meeting of the fire commissioners held this week it was decided to install six new fire hydrants, three of them along the Canyada road, two on the Mountain Home road and one on the Kings Mountain Road.

$9,121 Collected During Year For Fines in Redwood

By HOMER L. ROBERTS
(United Press Staff Correspondent)

SACRAMENTO, Cal., May 14.—(UP)—Breaking the law, a quaint old pastime that seems to be growing in popularity these days, cost citizens of Redwood City exactly $9,121.00 in fines last year.

The offenses for which these penalties were levied included everything from peddling without a license, crapshooting, "stepping on the gas," on state highways, to assault and battery, selling home-brew or common theft.

To combat the rapid growth of crime in California, a new State department of penology was created by the 1929 legislature, and is now functioning. This embraces the Divisions of Criminal Identification, State Prison Board, Narcotic Enforcement, Criminology, Pardons and Commutations and the Crime Commission.

The Crime Commission, formerly a legislative agency, carries on a year-round study of crime, its cause and prevention. At the 1931 legislature it will come forward with an entire new program of remedial legislation.

Last year marked a substantial gain in crime, as indicated by fines paid in incorporated cities, which totaled $4,091,602.89 as compared to $3,823,817.76 the year previous.

County fine collections aggregate $1,683,151 as against $1,705,335.23 the year before. The city fines resulted from convictions in municipal courts while the county penalties were meted out by justice, probation and superior courts.

Los Angeles, biggest city of California, was the biggest lawbreaker. It had a total of $1,582,739, while the county of Los Angeles totaled $384,182. San Francisco's figure, which included both city and county, was $905,385.

The city of Corning, for the third successive year, reported no collections of fines for breaking city laws. The lowest total for the year reported by any city was $3.00 for the city of Ceres.

Delegates from Olive Branch Rebekah Lodge No. 48, I. O. O. F., this city, to the Rebekah Assembly in Oakland this week are Mrs. F. R. Bomberg, Mrs. A. W. Russell, Mrs. William Keller and Mrs. Walter Johnson.

SEQUOIA BOYS TO RECEIVE BLOCKS

By ANDY BRIGHT

Thirty-nine Sequoia boys will receive their block sweaters at an awards assembly to be held within the next two weeks.

Dale Childers is the only boy who will receive his third championship block. He placed first in the high hurdles, shot put, and discus in the P. A. L. He won his second block in 130 football last year.

Terry Kellogg, Frank Goldwaite, Ed Preader, Al Tognoli and Gordan Partee will receive their second blocks.

The date for the assembly will not be definitely set until after the N. C. S. swimming meet tomorrow night.

The full list as given by authorities in the boys' gym is as follows: Championship blocks—Bob Dickinson, Howard Keplinger, Edwin Abbott, James McGuire, William Lewis, Elmer Garcia, Albert Hoffman, Dale Childers, Emile Pommes, Ed Preader, Al Tognoli, Jack Frost, George Rohrer, Frank Goldthwaite, Jim Adams, Laurence Drivon, Leonard Lopez, George Jelich, Carl Thimler, Gordon Partee, Ralph Stubbe, Kermite Plowman, James Gibbs, Al Suddjian, Terry Kellogg and John Semeria.

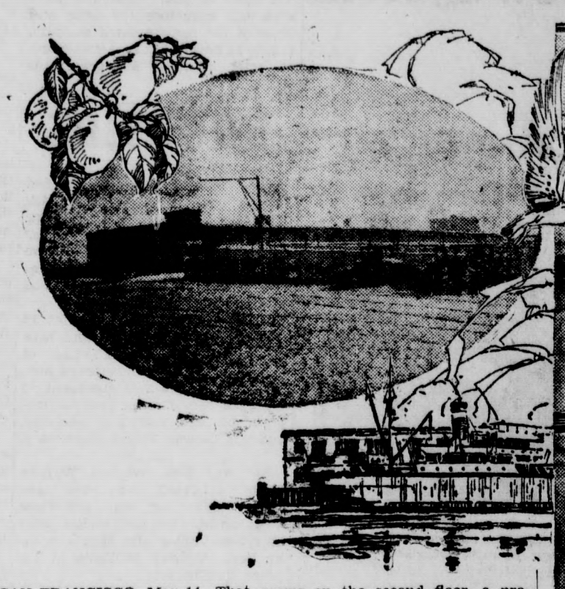
Vernon Barnes, Joe Marino, Rupert Bradley, Carl Frahm, George Cartwright, Harry Perry, Maurey Yancey, James Neuman, Glenn Stoner and Edward Garcia.

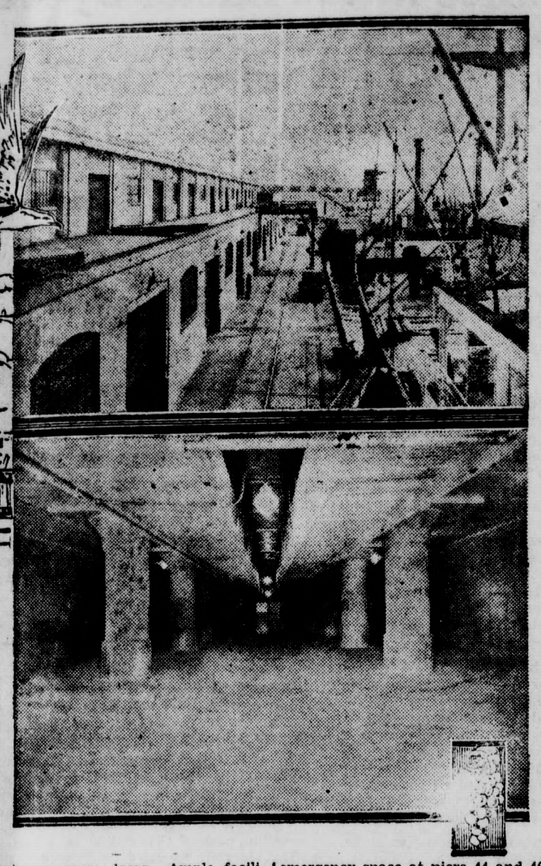
Enno Ferrando won an achievement block in track. This is based on the number of points earned per meet.

Fred Baker and Warren Ostrom will receive their managers blocks. Leonard Lopez, listed among those to receive championship sweaters, will also rate a managers block.

These awards are bought partly by the school and partly by the student who is to receive the sweater. Five dollars is paid by the school on each block. Although an unusually large number of block sweaters and other awards are being given to both boys and girls, the student commissioners have announced that funds will be available from the student body treasury. The total cost of all spring awards has been estimated by Ted Seufert, commissioner of finance to be about $357.

STATE OPENS NEW FRUIT SHIPPING TERMINAL FOR S. F. BAY DISTRICT





SAN FRANCISCO, May 14—That the farmers' problem in foreign trade occupies a foremost place in the development program of the Board of State Harbor Commissioners, and that the recent opening of the State Cold Storage Plant on the San Francisco waterfront is the first step in a plan of direct co-operation with California growers of perishable commodities, is embodied in an interview given out today by Major C. L. Tilden, president of the Harbor Board. In announcing the completion of the new shipside refrigeration terminal, Major Tilden issued the following statement:

The problems of agriculture are a vital part of our foreign trade. And it is this thought which guides the Board of State Harbor Commissioners in its present development program at the harbor of San Francisco. The recent opening at China Basin of the State Cold Storage Plant is an important step toward co-operation with California growers of perishable fruits and vegetables."

The installation consists of a power plant located on the first floor of the State Products Terminal building, a series of cold storage rooms on the second floor, a provision for future expansion by adding stories above the second, or converting additional space laterally along the second floor. This State Products Terminal building is constructed of reinforced concrete and is so planned as to carry six stories. It is 812 feet by 135 feet in dimensions on the ground floor, while the upper story is 812 feet by 102 feet, and the present refrigeration plant occupies but one-third of the second floor. In other words, the structure offers almost limitless opportunity for expansion as future traffic may demand.

The building is closer to shipside than any other refrigeration terminal on the Pacific Coast, being within 65 feet from the center of the hatch of the average ship. In addition to this, the building which is located between Third street and the Embarcadero (the two main arteries for harbor traffic), is so planned as to make possible the minimizing of handling and rehandling hazards. A wide concrete ramp leads from the Embarcadero and Berry street to a covered saw-toothed receiving platform, making it possible for trucks to unload within ten feet of the storage room doors. Ample facilities are available for direct transfer from the second floor to the ship, and delivery to the first floor will be speedily handled by modern elevator service and by spiral chutes in the shipside corridor of the plant.

The building and equipment represent a cost of about $300,000, and is one of the finest examples of insulation work in the west, the floors, walls and pillars being covered with 4-inch cork, while the ceiling is lined with 5-inch cork. It will have a shipside loading platform 1,036 feet in length, while the maximum berthing space available, including emergency space at piers 44 and 46, is 3,200 feet.

In adopting its policy of handling this particular piece of harbor development, the Board of State Harbor Commissioners has endeavored to follow the rules of good business judgment. It has provided a plant, the purpose of which is to serve the ultimate demands of the business. In the event that it becomes necessary, this plan and equipment will be immediately expanded. In the meantime, the Harbor Board purposes to use every effort to co-operate with growers and shippers in solving the present farm marketing problems.

Father Joseph Power, who was killed in an automobile accident in Sonoma county, last Saturday evening, was well-known in Menlo Park, where he attended St. Patrick's Seminary for eleven years. He was 26 years of age and was ordained in St. Mary's Cathedral last June. The priest was on a sick call when his machine went over an embankment near St. Helena.

JANTZEN SWIM SUITS

Emphasize Individuality when you don your swimming suit. Not alone in color, but in style and perfect fit. And when you want to really SWIM, you're doubly glad your suit's a JANTZEN.

See the new models now on display here! Solid colors, bright hues, distinctive stripes.

Tightly knitted from long-fibre wool by the Jantzen-stitch process, a Jantzen fits you lightly, comfortably, smoothly—without a wrinkle. And being extremely elastic, a Jantzen retains it shape.

Your Jantzen suit is here—your color, your size.

Men's $5 and $6
Ladies $5.50 and $6.00
Boys' $4.75 and $5.50

FREE—Come in for your JANTZEN Diving Girl windshield sticker.

LAWRENCE TIBBETT MAKES INITIAL TALKING FILM

Noted Star Will Be Seen at Sequoia Theatre in "The Rogue Song," a Barrymore Production in Technicolor

Metro-Goldwyn-Mayer's much discussed screen success, "The Rogue Song," filmed entirely in Technicolor and starring Lawrence Tibbett, will open an engagement of three days at the Sequoia Theatre, starting Sunday.

The production, an original story by Frances Marion with dealogue by John Colton, co-author of "Rain" and author of "The Shanghai Gesture," was directed by Lionel Barrymore. The music was written by Franz Lehar and Herbert Stothart with lyrics by Clifford Grey. The settings were made under the supervision of Cedric Gibbons and Alexander Toluboff.

It is believed the making of this picture was considered somewhat of an experiment inasmuch as Tibbett is the only living opera star of international reputation to have appeared on the screen. However, advance reports of the complete success of Thibbett's talking picture do but indicate that he has paved the way for a wholesale immigration of opera stars to Hollywood.

The songs in the production range from numbers of operatic magnitude accompanied by a symphony orchestra, to simple love songs and gypsy ballads. They include, "To Live, To Love," "Once in the Georgian Hills," "The Narrative," "When I'm Looking at You," "Little White Dove," "The Shame Cry," "The Rogue Song" and "the Bandit Chorus." Assisting in the musical end of the picture are Elsa Alsen, dramatic soprano, a women's chorus and a male chorus.

The filming of the songs was done in a specially prepared set of sound stages. The orchestra in each case was housed in a horn or thin wood orchestra shell in which three microphones of different frequencies were placed. Herbert Stothart heard Tibbett's voice over earphones, as he conducted the accompaniments in the set outside. Voice and music were put together or "mixed" in a monitor room insulated, so far as sound is concerned, from both sets.

It is stated that while a large number of persons will be primarily interested in the musical attractions of "The Rogue Song," the producers were careful not to allow the interesting plot of the picture to become submerged in the maze of musical numbers. It was with this in mind that Lionel Barrymore, considered to be one of the foremost directors on the Metro-Goldwyn-Mayer staff, was selected to supervise the filming of Miss Marion's story. Barrymore interpolated the musical numbers at consistent points in the plot without detracting from the continuity of the situations.

The setting is laid in the Caucasus Mountains with Tibbett playing the role of a swashbuckling Russian Robin Hood, leader of a group of singing bandits who steal from the rich and give to the poor. The picture is said to contain some unusually effective cavalry scenes in which a large number of Russian Cossacks participated.

Douglas Shearer, chief sound engineer, headed a scientific staff to take charge of the special blending of sound and color required for this all Technicolor production. The color work is said to be as fine as anything yet done in the advanced medium, a particularly beautiful scene being that of an Albertina Rasch ballet of 100 girls who dance to the modernistic music of Dimitri Tiomkin.

The production contains a huge cast. Phominent parts are played by Catherine Dale Owen, Wallace Macdonald, Kate Price, Lionel Belmore, James Bradbury, Jr., Nance O'Neil, Judith Vosselli, Burr MacIntosh, Ullrich Haupt and the well-known Hal Roach team of Laurel and Hardy, who supply comedy relief as renegades attached to Tibbett's band.

FOUR NEW TEACHERS COMING TO SEQUOIA

To take the place of Sequoia teachers on leave of absence, four new teachers will instruct Sequoians when school stars again in the fall, and one that was here two years ago is returning.

Miss Louise Shedd, a graduate of Stanford, will take Carl Anderson's biology classes. She was an assistant student instructor at Stanford, and then taught in an Oakland high school for a year.

Journalism and English classes of Miss Eunice Schmidt will be taken by Miss Louise Watkins, from Huntington Park, where she taught two years. Before that she was head of the English department at Pendleton high school in Oregon.

Mrs. Elizabeth Littler will not teach stage craft next year, instructing only English classes. Edwin Spence is to take her stage craft class and one English class. He comes from San Diego high school, where he had drama and stage craft for six years. Before that he taught English at Broadway high school in Seattle, Washington. Preceding that, he was head of the English department at Boise high school in Boise, Idaho.

Miss Esther Higgins from Crockett high school will teach sophomore English and a new class at Sequoia, speech correction. Obtaining her master's degree at the University of California recently, she specialized in the latter subject.

Ferdinand Schraidt came to Sequoia first in 1921, and taught here for six years. In 1928 he left for Germany, and has been there ever since, as the manager of a marble quarry at Gundelsheim. He will teach mechanical drawing, which he taught before he left, and all the first year German classes.

Sequoia "Times" Staff Appointments To Be Announced

By ANDREW BRIGHT

Senior appointments on the Sequoia "Times" staff for next year will be announced at the Matrix Table, a dinner to be given by the members of the Sequoia press club, Thursday evening, May 29. The dinner will be held in the service club room and will probably be followed by dancing in the girls' club room.

The present upper staff members will be the speakers, and as each closes he will introduce the person who succeeds him next year. Following this Miss Eunice Schmidt, "Times" advisor, will speak. She will also award the prize for the student who has written the most for the Sequoia "Times" during the past semester. She will close with a presentation of the Quill and Scroll pledge pins. Quill and Scroll is a national honorary society for high school journalists.

Andy Bright will act as toastmaster for the occasion.

The committee chairmen chosen by Ester Johnson, Press club president, are: Wawona Washburn, invitations; Gloria Grandi, decorations; Brita Seebohm, food; Eugene Hartney, program, and Stanley Wohlken, clean-up.

Coastside Union Elects Officers

Officers were elected at a meeting of the Coastside Civic Union, held Monday night at Princeton.

The officers chosen are: President, M. J. Bettencourt; first vice-president, Frank L. Darymple; second vice-president, J. L. Kent; secretary, R. Guy Smith; treasurer, Col. Felix B. La Crosse.

Directors named are: Salada Beach, Ray T. Higgins and Clarence Stafford; Brighton Beach, E. Winters and W. E. Bailey; Montara, Frank L. Darymple and J. L. Kent; Moss Beach, Dan Bertelotti and R. Guy Smith; Granada, C. C. Christiansen and Frank Handcock; Half Moon Bay, M. J. Bettencourt and Col. Felix B. La Crosse; San Gregorio, John V. Sousa and P. M. Peterson; La Honda, George W. Fry and one other to be named; Pescadero, J. C. Williamson and Roy Scott.

The Union passed resolutions favoring the proposed cross-county road and opposing the proposed diversion of water from the headwaters of Pescadero and San Gregorio creeks.

BIG CROWD ATTENDS F. A. U. CARD PARTY

A large crowd attended the card party given in the Foresters hall last Tuesday evening by the Fraternal Aid Union. The following made high scores in the whist games, according to the announcement of Mrs. Harry Potts, chairman of the committee in charge of the arrangements: Kenneth Murray, Mrs. W. A. Harper, L. B. Winiger, Mrs. Shearer, Mrs. Bertha Palmer, Mrs. B. G. Robinson, Henry Gilroy and Mrs. James Coleman.

Nine Schools To Compete In Swimming Meet

Sequoia Pool Will Be Scene of North Coast Swim

By ANDY BRIGHT

Long standing North Coast Section records will be threatened Saturday, when schools from all the bay region meet in the Sequoia pool for the annual swimming meet. The schools that plan to enter teams are: Alameda, Berkeley, Piedmont, Richmond, San Rafael, Tamalpais, John Swett of Crockett, Palo Alto and Sequoia.

The Cherokee varsity swimming team has had a better chance this year to capture the N. C. S. than they have had for some time. The varsity has had an exceptionally good season and easily won the P. A. L.

Coach Jim Eva is counting on his two captains, Frank Goldthwaite and Terry Kellogg to take first places in their respective events. Kellogg will swim the two junior events, the 50-yard and the 150-yard free style sprints. Frank Goldthwaite will swim the 100-yard and the 220-yard free style events.

Schell of Tamalpais will give Terry a battle for honors in the two junior events, while George Rohrer, backstroke star, will face heavy competition in his two events, the 50-yard backstroke and free style.

Palo Alto who won the N. C. S. last year, with 36 points, will be another strong contender for honors, as will be Berkeley, Alameda, Richmond and Tamalpais.

Kiwanians Hear Talk on Hawaii

Members of the Redwood City Kiwanis club were given an interesting talk Wednesday noon by Fred Sargent, distributor for northern California of the White Truck company. The speaker recently returned from an extended visit to the Hawaiian islands, and while there took motion pictures of many places of interest. His talk Wednesday, was illustrated with these pictures, which added considerably to the interest of the meeting.

Sargent was a former resident of Redwood City and was met Wednesday by many old friends and former school mates.

The chairman of the meeting was Carl Stoner. Carl Wagner, district trustee of the club, who has recently returned from a trip to the southern part of the State, reported on his visits to several Kiwanis clubs during his travels in the south.

The chairman presented Gordon Seely and D. R. Stafford the two prizes won by the two members in the club's golf tournament last week. Seely was presented with a statuette presented by Bill Fitzgerald, manager of the Emerald Lake golf club; Stafford with a small silver cup provided by the members who entered the contest.

The Indispensable Silk Sports Dress

The lovely pastel shades—baby blue, Patou pink, butter yellow . . . the gay little summer prints in fresh colorings—don't they make you think of sunny days out-of-doors, or cool summer evenings at the club or out in the car for a long, moonlit drive? And these are the silk frocks that will be smart for summer occasions! Cap-sleeved, sleeveless with adorable flounces, tiers, bows and details.

$4.98 and $6.90

As these low prices the smart wardrobe will add several.

Charming modes for women . . . for misses . . . for junior misses!

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SAN MATEO.

No. 17060

CELIA CLARK, also known as CELIA TOBIN CLARK,

Plaintiff

vs.

ALL PERSONS claiming any interest in, or lien upon, the real property herein described, or any part thereof,

Defendants.

KIRKBRIDE, WILSON & BROOKS, Peninsula Building, San Mateo, California, Attorneys for Plaintiff.

SUMMONS TO ESTABLISH TITLE

The People of the State of California Send Greetings To:

All persons claiming any interest in or lien upon, the real property herein described or any part thereof, defendants:

You are hereby required to appear and answer the complaint of plaintiff, filed with the Clerk of the above Court and County within three months after the first publication of this Summons, and to set forth what interest or lien, if any, you have in or upon that certain real property or any part thereof situate in the County of San Mateo, State of California, and particularly described as follows, to-wit:

BEGINNING at a point where the division fence line between properties formerly owned by John Parrott and Walter S. Hobart intersects the southwesterly line of the main county road of the County of San Mateo, also known as State Highway and as El Camino Real, said point being the most northerly corner of the lands formerly owned by Walter S. Hobart; thence on and along said division fence line South 43° 7' West 8457 feet 6 inches to the extreme southwesterly point of the northwesterly boundary line of those certain lands conveyed by Walter S. Hobart and Hannah Hobart, his wife, to W. A. Clark by deed dated April 8, 1904 and recorded April 15, 1904, in liber 108 of deeds at page 334, San Mateo County Records; thence South 43° 7' West 138.6 feet; thence South 55° 30' East 6.90 chains; thence south 50° 45' West 3.33 chains; thence South 37° 15' West 10.09 chains to a point, which point is marked with an iron monument marked "P.2" set in concrete, which point is common to the properties now or formerly owned by A. M. Parrott, Celia Clark and Spring Valley Water Company and said point being more particularly described in that certain deed between Spring Valley Water Company, a corporation, and Celia Clark, dated October 4, 1929, and recorded October 16, 1929, in liber 433 of Official Records at page 443, San Mateo County Records; thence along a fence line as it exists on this date South 2° 13' East 228.40 feet to a fence post marked "P.3"; thence South 13° 28' East 75.40 feet to a fence post marked "P.4"; thence South 22° 28' East 62.50 feet to a fence post marked "P.5"; thence South 27° 43' East 191.00 feet to a fence post marked "P.6"; thence South 23° 58' East 132.60 feet to a fence post marked "P.7"; thence South 18° 58' East 193.50 feet to fence post marked "P.8"; thence South 20° 48' East 415.40 feet to a fence post marked "P.9"; thence South 15° 09' East 345.60 feet to a fence post marked "P.10"; thence South 14° 39' East 733.52 feet to a fence post marked "P.11"; thence South 39° 57' East 823.82 feet to a fence post marked "P.12"; set at a point common to the properties now or formerly owned by Celia Clark, P. B. Casey and the Spring Valley Water Company, a corporation; thence North 43° 15' East 4813.38 feet to the point of beginning of these certain lands conveyed by Walter S. Hobart, an unmarried man, to Charles W. Clark by deed dated April 9, 1914, and recorded June 2, 1919, in liber 282 of deeds at page 231, San Mateo County Records thence North 33° 43' West 1512.5 feet to a point, which point is the most northerly corner of the lands of the San Mateo City Homestead Association as shown on the map entitled "Lots of the San Mateo City Homestead" filed February 20 1872 in the office of the Recorder of San Mateo County in Book A of Maps at page 3 and copied in Book I of Maps at page 46; thence South 80° 01' West 269 feet; North 37° 36' West 587.80 feet; thence North 82° 6' East 147.70 feet and North 77° 24' East 163 feet to the most westerly corner of the lands conveyed by Charles W. Clark et ux to Walter S. Hobart by deed dated March 7, 1903 and recorded May 13, 1909 in liber 164 of deeds at page 189, San Mateo County Records; thence North 67° 34' East 1247 feet and 4 inches to the most westerly corner of that certain tract of land containing 1000 square feet conveyed by Walter S. Hobart et ux to Celia Tobin Clark by deed dated July 29, 1929 and recorded September 17, 1929, in liber 432 of Official Records at page 336, Records of San Mateo County running thence along the southerly boundary line of said tract of land conveyed to Clark South 89° 22' 06" East 53.88 feet to the most southerly corner of said tract of land containing 1000 square feet; running thence along the southeasterly boundary line of said tract of land containing 1000 square feet, North 43° 07' East 51 feet to the most easterly corner of said tract of land containing 1000 square feet said tract of land being also the most easterly corner of the lands conveyed by Charles W. Clark et ux to Walter S. Hobart by deed dated March 7, 1903 and recorded May 13, 1909, in Liber 164 of deds at page 189 above referred to running thence north 43" 7' East 4565 feet to the southwesterly line of the main county road thence North 41° 28' West 1351 feet to the point of beginning.

EXCEPTING THEREFROM AND THEREOUT the following parcels of land:

BEGINNING at a point on a line drawn parallel with and distant 30.00 feet Southwesterly measured at right angles from the Southwesterly line of the County Road known as El Camino Real, distant on said parallel line South 41° 28' East 527.03 feet (the bearing of said Southwesterly line being called South 41° 28' East for purposes of this description) from the Southeasterly line of that certain roadway known as Cemetery Lane, as said roadway is particularly referred to in that certain Deed from Abby M. Parrott to the Roman Catholic Archbishop of San Francisco, a corporation sole, dated May 28, 1885, and recorded August 8, 1885, in Liber 39 of Deeds at page 207 and running thence from said point of beginning South 42° 52' West 1126.01 feet; thence parallel with said Southwesterly line of said County Road South 41° 28' East 562.75 feet; thence North 42° 52' East 1126.01 feet to a point on said line parallel with and distant 30.00 feet Southwesterly from the Southwesterly line of said County Road; thence along said parallel line North 41° 28' West 562.75 feet to the point of beginning and containing 14.4758 acres, more or less.

ALSO BEGINNING at a point on the Southwesterly line of the County Road known as El Camino Real distant thereon South 41° 28' East 526.97 feet from the South easterly line of that certain roadway known as Cemetery Lane particularly referred to in that certain Deed from Abby M. Parrott to the Roman Catholic Archbishop of San Francisco a corporation sole, by Deed dated May 28, 1885 and recorded August 8, 1885, in Liber 39 of Deeds at page 207 and running thence along said Southwesterly line of El Camino Real South 41° 28' East 562.75 feet thence leaving said line South 42° 52' West 30.15 feet; thence parallel with said Southwesterly line of El Camino Real and distant therefrom 30 feet Southwesterly at right angles North 41° 28' West 562.75 feet and thence North 42° 52' East 30.15 feet to the point of beginning. Containing 0.3876 acres, more or less.

AND YOU ARE HEREBY NOTIFIED that unless you so appear and answer, the plaintiff will apply to the Court for relief demanded in the Complaint, to-wit: That this Court by its judgment and decree ascertain and determine all estates, rights, titles, interests and claims in and to said real property and every part thereof, whether the same be legal, or equitable, present or future, vested or contingent, or whether the same consists of mortgages or liens of any description; that it be adjudged and decreed that the claims of any person claiming an interest in, or lien upon, the real property herein described or any part thereof, is without merit, and that they have no claim, right, title estate or interest whatsoever in and to said real property or any part thereof; that this Court adjudge and decree this plaintiff to be the owner in fee simple absolute to said real property and every part thereof, and to be in the actual and peaceable possession of said property and every part thereof and establish plaintiff's title thereto against all persons whomsoever and for such other relief as may be meet and for plaintiff's costs herein.

WITNESS the hand and seal of said Court this 28th day of January, 1930.

ELIZABETH M. KNEESE, (SEAL) County Clerk

By G. R. WINTER, Deputy Clerk

NOTICE OF SALE OF REAL PROPERTY

IN THE SUPERIOR COURT OF THE COUNTY OF SANTA CLARA, STATE OF CALIFORNIA.

In the Matter of the Guardianship of the Persons and Estate of EFFIE CARDOZA MELLO, ELSIE CARDOZA MELLO, and HENRY (sometimes also known as and called HARRY) CARDOZA MELLO,

Minors.

No. 17177

NOTICE is hereby given that the undersigned Guardian of the persons and estates of Effie Cardoza Mello, Elsie Cardoza Mello, and Henry (sometimes also known as and called Harry) Cardoza Mello, Minors, will sell (subject to confirmation by the Superior Court of Santa Clara County, California), at private sale, to the highest bidder, for cash, on or after the 27th day of May, 1930, at the office of Rodgers & Smith, attorneys at law, Madison-Thoits Building, 156 University avenue, Palo Alto, Santa Clara County, California, all the right, title, interest and estate of said minors in and to the following described real property situate in the County of San Mateo, State of California, to-wit:

Being a portion of Lot Numbered 15, as said Lot 15 is delineated and so designated upon that certain map entitled, "Map of Faber Subdivision, San Mateo County, Cal.", filed for record October 23, 1912, in Book 8 of Maps, at page 31, San Mateo County Records; said portion being described as follows, to-wit:

Commencing at a point in the westerly line of said Lot 15, distant thereon S. 1° 23' E.—(Called S. 1° 29' E. on said map) 292.30 feet from the northwest corner thereof, said point being known as Station "D" 305+ 44.45 P. O. T. on the center line of the survey for the location of the State Highway designated as Road IV., San Mateo County, Route 68, Section D; thence from said point of commencement along said westerly line of Lot 15, S. 1° 23' E. 79.03 feet to a point in a line parallel with and 62.50 feet southwesterly, at right angles, from the center line of said highway survey; thence along said parallel line S. 53° 39' E.—965.07 feet to a point in the center line of Pulgas Avenue, as said Avenue is shown upon said map; thence along said center line N. 0° 18' W. 157.88 feet to a point in a line parallel with and 62.50 feet northeasterly, at right angles, from the center line of said highway survey; thence along said parallel line N. 53° 39' W.—965.35 feet to a point in the aforesaid westerly line of Lot 15; thence along said westerly line S. 1° 23' E.—79.03 feet to the point of commencement; containing, exclusive of that area lying within the limits of Pulgas Avenue, 2.70 acres, more or less.

Bids and offers for said property must be in writing and will be received at the law offices of said Rodgers & Smith, at 156 University Avenue, Palo Alto, California, or may be filed with the Clerk of the above named Superior Court, or delivered to the undersigned Guardian of the persons and estates of said minors, personally, at any time after the first publication of this notice and before the making of said sale.

Dated: May 9th, 1930.

ANNA CARDOZA MELLO
Guardian of the Persons and Estates of said Minors.

RODGERS & SMITH,
Attorneys for said Guardian, Palo Alto, California.

First publication in Times-Gazette, May 16, 1930; and last publication May 23, 1930.

NOTICE OF AWARD No. 20

Pursuant to statute and to the resolution of the Board of Supervisors of the County of San Mateo directing this notice,—

NOTICE IS HEREBY GIVEN that said Board of Supervisors in open session on the 12th day of May, 1930, publicly opened, examined and declared all sealed proposals or bids for doing the following work ordered in said county, to-wit:

That O'Keefe Street, Donohoe Street, Park Street and Haight Street from the westerly line of Menalto Avenue to the easterly line of Willow Road; James Street from the westerly line of Laurel Avenue to the easterly line of Willow Road; Garden Street from the westerly line of Menalto Avenue to the southerly line of Bay Road; Cloud Street and Carmel Avenue from the northerly line of O'Keefe Street to the southerly line of Donohoe Street; Carmel Avenue from the northerly line of Donohoe Street to the southwesterly line of James Street; Laurel Avenue from the southwesterly line of "Menalto Park" subdivision, as hereinafter mentioned, to the southerly line of Bay Road; Laurel Avenue from the northerly line of Bay Road to a line drawn across said Laurel Avenue parallel with and distant 110 feet northerly from said northerly line of Bay Road; Central Avenue from the southwesterly line of said "Menalto Park" subdivision to the southerly line of Donohoe Street; Central Avenue from the northeasterly line of Garden Street to the southerly line of Bay Road; the easterly portion of Willow Road from the southwesterly line of said "Menalto Park" subdivision to the southerly line of Bay Road; the westerly portion of Menalto Avenue from the southwesterly line of said "Menalto Park" subdivision to the southerly line of Bay Road; Bay Road from the northeasterly line of Bayshore Boulevard to the westerly line of the existing pavement on Menalto Avenue; including all intersections and terminations or portions thereof within the lines and limits of the streets, avenues and roads described, be improved as follows, to-wit:

(a) By grading all of said streets and avenues for the full length hereinbefore described and for the widths as all are more particularly shown and set forth on the plans, profiles, detailed drawings and specifications hereinafter referred to;

(b) Also by constructing on said streets and avenues combined hydraulic cement concrete curbs and gutters and hydraulic cement concrete sidewalks for the lengths, widths and of the forms, sizes, dimensions and in the particular locations as all are more fully shown on the said plans, profiles, detailed drawings and specifications hereinafter referred to;

(c) Also by the construction on the roadways of said streets and avenues, an asphaltic concrete wearing surface three (3) inches in thickness laid upon a water bound rock macadam base pavement four (4) inches in thickness for the widths, lengths, dimensions, and in the locations as are all more particularly shown and designated on the plans, profiles, detailed drawings and specifications hereinafter referred to;

(d) Also that a cement concrete pipe storm water sewer, with red burnt brick catch-basins, capped with cast iron frames and gratings or covers, and red burnt brick manholes capped with cast iron frames and covers be constructed in Laurel Avenue extending from the herein proposed catch-basins near the alley which crosses Laurel Avenue immediately southwesterly from Bay Shore Boulevard; running thence along said Laurel Avenue, crossing said Bayshore Boulevard and crossing Bay Road and continuing down Laurel Avenue to the herein proposed catch-basin located in the westerly gutter of said Laurel Avenue at a point 80 feet northerly from the northerly line of Bay Road; said storm water sewer with said catch-basins and said manholes, shall all be of such diameters, lengths, depths, forms, design and dimensions and in such particular locations as all are more fully shown and described in the plans, profiles, detailed drawings and specifications hereinafter mentioned;

(e) Also that four (4) inch diameter vitrified saltglazed iron-stone pipe lateral or side sewers be constructed in Donohoe Street and Park Street, each said lateral sewer shall extend from the existing main sewer on said streets to the edge of the sidewalk nearest the property line, said lateral sewers to be constructed to the number and in the locations as all are shown on said plans, profiles, detailed drawings and specifications hereinafter mentioned.

Whenever manholes or catch-basins are to be constructed along the line of any sewer mentioned herein said manholes or catch-basins shall be connected with said sewer.

There is hereby excepted from the work and improvements herein described any portion thereof that is already done to the lines and grades as shown on the plans, profiles, detailed drawings and specifications referred to.

The widths of the streets, avenues, roads, boulevards and alleys, above described and mentioned, and the widths of the roadways of said streets, avenues, roads, boulevards and alleys, and the widths of the sidewalks of said streets, avenues, roads, boulevards and alleys, are to be and are as shown on the plans, profiles, detailed drawings and specifications hereinafter particularly referred to.

Wherever the words "Menalto Park" are used in this resolution they are taken to mean and refer to that subdivision known as "Menalto Park" as shown on that certain map entitled "Menalto Park," filed for record December 23rd, 1925, in Volume 13 of Maps at page 19, San Mateo County Records;

All the streets, avenues, alleys, roads and boulevards or portions thereof mentioned and described herein upon which any work is to be done are all as shown on those certain maps entitled "Menalto Park," filed for record December 23rd, 1925, in Volume 13 of Maps at page 19, San Mateo County Records; "Menalto Park, Map No. 2," filed for record December 21, 1926, in Volume 14 of Maps at page 59, San Mateo County Records; "Menalto Park, Map No. 3," filed for record December 1, 1927, in Volume 16 of Maps at page 52, San Mateo County Records; "Bay Shore Park," filed for record December 22, 1926, in Volume 14 of maps at page 60, 61 and 62, San Mateo County Records.

The official elevations for the streets, avenues, roads, boulevards and alleys or portions thereof above mentioned are shown, described and established by and on the plans, profiles, detailed drawings and specifications for said work and improvements described herein, which plans, profiles, detailed drawings and specifications were heretofore adopted by the Board of Supervisors of the County of San Mateo on the 3rd day of March, 1930, by "Resolution Adopting Plans, Profiles and Specifications No. 20," which plans, profiles, detailed drawings and specifications are now on file in the office of the County Clerk of the County of San Mateo, and to which reference is made for a description of the grades at which said work is to be done and made.

The zero base and datum for the elevations and grades herein established is taken as being a plane 22 feet below a cross mark cut in the concrete curb on the curb return on the westerly side of Willow Road at its intersection with the northeasterly line of Bayshore Boulevard, and the elevations and grades shown on the plans, profiles, detailed drawings and specifications herein mentioned and referred to are in feet and decimals thereof in reference to and above said datum. All grades or elevations between points shown shall be on straight lines.

All the aforesaid work and improvements shall be done in accordance with the plans, profiles, detailed drawings and specifications therefor, made by the Engineer of Work heretofore appointed by said Board of Supervisors, which plans, profiles, detailed drawings and specifications were heretofore adopted by said Board of Supervisors on the 3rd day of March, 1930, by "Resolution Adopting Plans, Profiles and Specifications No. 20" which plans, profiles, detailed drawings and specifications are now on file in the office of the County Clerk of the County of San Mateo, State of California, and to which plans, profiles, detailed drawings and specifications reference is hereby made for further particulars and for an accurate, detailed and complete description and location of said work and improvements and the same are made a part hereof.

And whereas said contemplated work and improvement in the opinion of said Board of Supervisors is of more than local or ordinary public benefit, said board makes the expenses of said work and improvement chargeable upon a district, which said board in its resolution of intention No. 20, passed March 3, 1930, declared to be the district benefited by said work and improvement and to be assessed to pay the costs and expenses thereof, and which said district is a certain portion of the County of San Mateo, State of California, and is bounded and described as fully set forth in said resolution of intention, reference to which is made for the boundaries thereof and a description thereof.

Said Board of Supervisors further declared and resolved in and by said resolution of intention that serial bonds bearing interest at the rate of seven percent. (7%) per annum from their date shall be issued in the manner and form provided by law to represent each unpaid assessment of twenty-five dollars ($25.00) or more for the costs and expenses of said work and improvements. Said bonds shall extend from their date over a period of nine (9) years from the second day of January next succeeding the 15th day of the next November following their date, as provided by the terms and provisions of the "Improvement Act of 1911" of the State of California, as amended, and now in effect.

Said resolution further provided that said work shall be done and assessments given and made as provided in said "Improvement Act of 1911" as amended.

Said resolution of intention was adopted pursuant to the provisions of that certain act of the legislature of the State of California designated as the "County Improvement Act of 1921" as amended, and future proceedings hereunder shall be taken and had in accordance with the provisions of said act.

Reference is hereby made to said resolution of intention No. 20, on file in the office of the county clerk of said county, and to the plans and specifications therein referred to, for further particulars.

That thereafter, and on the 12th day of May, 1930, said Board of Supervisors awarded the contract for said work to the lowest responsible bidder, to-wit, IRVING L. RYDER, at the prices named for said work in his proposal or bid on file, as follows, to-wit:

ITEM A: For grading in all classes of material, for all classes of work, except sewer work, including preparation of the subgrade and all incidental work, complete, measured in excavation only, per cubic yard.....$0.75

ITEM B: For construction of three-inch asphaltic concrete wearing surface laid upon a four-inch waterbound rock macadem base, per square foot $0.15

ITEM C: For construction of combined hydraulic cement curb and gutter, per lineal foot.....$0.85

ITEM D: For construction of cement concrete sidewalk per square foot $0.17

ITEM E: For construction of four-inch diameter vitrified saltglazed ironstone pipe sanitary lateral sewers, complete, per lineal foot $0.60

ITEM F: For construction of twelve-inch diameter cement concrete pipe storm water sewer, per lineal ft. $2.00

ITEM G: For construction of eighteen-inch diameter cement concrete pipe storm water sewer, per lineal foot $2.50

ITEM H: For construction of twenty-four-inch diameter cement concrete pipe storm water sewer, per lineal foot $3.50

ITEM J: For construction of red burnt brick storm water manholes, complete with cast iron frames and covers, each.....$90.00

ITEM K: For construction of red burnt brick storm water catch-basins, complete, with cast iron frames and gratings, each $90.00

ITEM L: For construction of steel reinforced cement concrete special curb inlet catchbasins, complete, with cast iron frames and covers, each $100.00

ITEM M: For construction of steel reinforced cement concrete special curb outlet catchbasin, complete, with cast iron frame and cover, each $60.00

Dated: May 12, 1930.

Fifty Years Ago

Times-Gazette, May 15, 1880

The Odd Fellows picnic at Turners Park last Saturday was a splendid success, both in point of attendance and enjoyment. The day was very windy, but under the shelter of the thick foliage about the park this was not observed, while the air was sufficiently cool to give zest to the outside sports, and games and dancing generally.

Early in the day deputations of citizens with their families from all the surrounding country began to arrive, including the pleasure seekers from San Mateo, Belmons, Woodside, Mayfield, Searsville, Menlo Park and Mountain View, and by noon it was estimated that there were nearly a thousand on the ground. The day was given up almost entirely to pleasure; the older people dancing, the younger competing in games and athletic sports. The day was spent without a single misadventure or accident, and all returned heartily satisfied and prepared to vote the Bay View Lodge a premium as the boss of picnic givers.

The Mutuals beat the Grangers last Sunday in a baseball game with a score of 20 to 11.

Open and airy summer cars have been placed on the S. P. R. R.

The peregrinating Frenchmen, with their performing bears called at Redwood City Friday, but not meeting with the patronage they desired, hastily tramped on to more appreciative fields.

There is a time for everything, and now that the amateur editor and professional poet has betrayed his ignorance of one of the standard authors and statesman of England, it is time for him to hide his diminished head. The best thing he can do is to go to Jones & Co., No. 712 Mission street, San Francisco, and disguise himself in a new suit of clothes. Tell them to charge it to us, Rowley. And by the way, you can't do better than advise the few people who consent to receive your paper into their homes to go and do likewise. They are all ashamed of it—at least our investigations have failed to discover any who are willing to admit that they subscribe for it. Jones & Co. will disguise them with suits of respectability so their neighbors will not recognize them.

FOR SALE—3000 gallon water tank down; 50 gallon gasoline tank; two coal oil stoves (cooking); one wood heater one gasoline engine and water pump. Apply 336 Jefferson avenue. 3-28-4t.

FOR SALE—Two 31x5.25 6 ply heavy duty Goodyear tires; run only 2,000 miles, just like new. Will take half price for quick sale. Apply this office.

SUMMONS

IN THE SUPERIOR COURT OF THE STATE OF CALIFORNIA, IN AND FOR THE COUNTY OF SAN MATEO.

ANTONE J. CARDOZA,

Plaintiff

vs.

IDA C. CARDOZA,

Defendant

No. 17179

Action brought in the Superior Court of the State of California, in and for the County of San Mateo and the complaint filed in said County of San Mateo in the office of the Clerk of said Superior Court.

KINCAID & FITZPATRICK, Attorneys for Plaintiff, Redwood City, California.

The People of the State of California Send Greetings to:

IDA C. CARDOZA,

Defendant

You are hereby required to appear in an action brought against you by the above named plaintiff, in the Superior Court of the State of California, in and for the County of San Mateo, and answer the complaint filed therein within ten days (exclusive of the day of service) after the service on you of this Summons, if served within said county, if served elsewhere within thirty days.

And you are hereby notified that if you fail to so appear and answer, the plaintiff will take judgment for any money or damages demanded in the complaint as arising upon contract, or will apply to the Court for any other relief demanded in the complaint.

Witness my hand and the Seal of the Superior Court of the State of California, in and for the County of San Mateo, this 3rd day of March, A. D. 1930.

In the Matter of the Estate of ANNA JOSEPHINE KASEBERG, also known as ANNA J. KASEBERG, Deceased.

No. 5067

CITATION

The People of the State of California, to

John Frederick Callaghan, James Clement Callaghan, Mary Ellen Duggan, Lucy Dickey, Euphraza Armstrong, Margaret Maddron, Theresa Callaghan, Crocker First Federal Trust Company, and to all other persons interested in the will of the above named deceased,

GREETING:

You and each of you are hereby notified that William J. Kaseberg, Winifred Kaseberg, Frances T. Tyler and Mary E. Doolan have filed in the above entitled court their written grounds of opposition and contest to the probate of the will of the above named deceased, and you and each of you are hereby cited and directed to appear in the above entitled matter and to plead to said written grounds of opposition and contest to the probate of will on file herein within thirty days after service upon you of the within citation.

BY ORDER of our Superior Court, at the County of San Mateo, this 14th day of April, 1930.

ATTEST:

ELIZABETH M. KNEESE, (SEAL) Clerk.

By MURA B. STILLESON, Deputy Clerk.

First publication in Times-Gazette, May 16, 1930; last publication, July 18, 1930.

PIONEER BUILDING OF TOWN CLOSED FOR LAST TIME

Tacoma Mill Structure, Built in 1859, Closed To Business Saturday Afternoon By Edwin B. Fox

By J. V. SWIFT

Saturday at noon Edwin B. Fox closed and bolted the dors and shuttered the windows of the old brick building on the creek at the corner of Washington and Bradford streets, and thus came to an end the business career, extending continuously over a period of seventy-one years, of that pioneer of Redwood City's structures. Its passing out was without ceremony. Only Mr. Fox and his daughter, Mildred, and the writer were present to witness its exit from Redwood City's commercial life.

In July, 1859, the scene that marked its opening to the public was vastly different. The files of the Times-Gazette tell in lauditory language of the erection of this "mammonth fire-proof structure" by W. C. R. Smith as a general merchandise store. Redwood City had a few years before made its bow as a future city of the Peninsula; the town was growing up along the water front, and Smith's new store was its center. Smith was an enterprizing citizen and identified with all those things that helped to promote the city's progress. It might be of interest to note that he was the grandfather of Mrs. Arthur V. Swift, well-known local resident. He passed away in Oakland several years ago.

In the early 60's Smith sold the property to Hanson, Ackerson & Co., which firm afterwards became Hanson & Co., and later grew into what is now known as the Tacoma Mill Co., an immensely wealthy corporation, which is still its owner.

Charles Hanson who was the founder and head of this company, had an humble start in Redwood City. He came here in the middle 50's and began his career as a bay captain, plying a vessel between Redwood City and San Francisco. The big city was then in its building, and needed lumber to keep up with its growth. Hanson transported much of this material; the city's furnaces required fuel, so the cordwood of the nearby mountains went along with the lumber and shingles to the San Francisco market. Added to these was the farm product from San Mateo to Mountain View, which found its way to the roaring metropolis of the Pacific Coast, through Redwood City. Scores of bay craft were engaged in the traffic, many men were given employment; they were of the happy-go-lucky money spending class and the town was lively in consequence.

Charles Hanson was ever alert when an opportunity came to make a profitable investment. In the 50's there broke out what is remembered as the Frazier river gold excitement in Alaska. It reached Redwood City and found its way into the mountains, where it inoculated violently many of the woodsmen who sold their hand-made shingles for a trifle and hurried away for the new gold field. This was Hanson's opportunity. He bought up all of the shingles that he could get, at his own price, and when he sold them at the market price, he was rich.

It was then that the firm of Hanson, Ackerson & Co. was formed and Smith's property taken over. With Hanson at its head the company became a power in financial circles.

The company built its own mills and manufactured millions of feet of redwood lumber and shingles, all of which went to the San Francisco markets. The product of the smaller operators and the farm produce went to the same destination, but all passed through Hanson Company's warehouses or over its wharves into the company's boats. It became a great local monopoly and often a merciless one.

Charles Hanson was married to Miss Charlotte Seymour, a schoolteacher, at San Jose, in 1860. His wife was educated in the college of Notre Dame in that city. She is recalled by those who knew her as a beautiful young woman of rare accomplishments. The couple had two children, William and Charlotte. Lottie, as the girl was known to the boys and girls of that day, was a lovable child with much of the graceful characteristics of her mother. Her death in the early 70's was a crushing blow to her parents, affecting each in a different way. Mrs. Hanson withdrew from the world and cloistered herself in her palatial home on Arguello street. While she often entertained lavishly it was as a sad-faced queen that she presided over her household on those occasions.

Charles Hanson sought surcease in the world of financial adventure. He no doubt nursed a great sorrow, but with stoical determination, he hid it. And his wealth multiplied into many millions. He and his wife, and their son, William, have long since passed away.

Thirty-five years ago Edwin B. Fox was sent down from San Francisco to take charge of the company's business, succeeding H. W. Schaberg. Both speak highly of their relations with Mr. Hanson. After the death of Mr. Hanson the business was taken over by Mr. Fox and Mr. George W. McNulty, member of the local city council and operated under the name of Fox & McNulty, and so continued until the final closing Saturday.

Countless thousands of times has the tide from the bay ebbed and flowed by the company's wharves and the old warehouse now decaying, but never a craft of the old days comes back to carry away the product of the mountains or fertile valley. Times and conditions have changed and Redwood City is busy with the new and looking forward to a great future.

Earthquake's Vagaries

An earthquake irrigated a cantaloupe field at Brawley, Calif., recently when a tremblor caused small geysers to spout five inches high over the 160-acre field owned by the S. A. Gerrard company. The water irrigated the entire field and then flooded adjacent areas before subsiding. Small sand piles were left in the wake of unusual inundation, and a beet field nearby was completely covered by new sand.

You may be a fine, upstanding respectable citizen, but a slippery pavement doesn't care.

HAD NO ACCOUNT TO BE PAID IN MONEY

(© by D. J. Walsh.)

ROSALIE BRANDON was home for a three weeks' vacation, and as usual her first hours at home were given over to restoring order to the doctor's accounts, for her father was notorious for his neglect of the bookkeeping end of his large practice, and Celia, the general housekeeper, had too much to do to bother with bookkeeping, even if she had known the meaning of debit and credit, which was doubtful. The making of featherweight biscuit, velvety cake and perfect roasts did not require a knowledge of business efficiency and Celia rated several degrees above 100 per cent perfect when it came to cooking. And as Rosalie frowned over the accounts, checked one after another of long, unpaid bills, she kept thinking how very shabby her father's old fur coat was; remembered the pride he had always taken in his personal appearance and now, due to his tenderheartedness, he was wearing a mangy old coat with half the hair worn off it and his suits were shabby and frayed at the cuffs, despite repeated pressings and cleanings! It wasn't fair! Surely a few of those bills could be met, little by little, if the debtors tried!

With a coughing, sputtering conglomeration of foreign noises and sounds a rattle-trap old car drew up at the front door of the doctor's house and a tall, extremely thin young man unwound himself from the steering wheel and prepared to alight. Just dad's luck, thought Rosalie, to be out when a patient who owned even an apology for a car called! Perhaps she could make him wait.

"Is Doctor Brandon in, ma'am?" asked the too-thin owner of the mystery of the automotive industry.

"No. Won't you wait, though? I expect him back almost any time, now," and Rosalie felt herself warming to the strange young man in spite of her annoyance over her father's affairs, and she found herself noticing how very blue the young man's eyes were; what a sad, tired, almost weary droop there was to his mouth and wide shoulders as he sat uneasily awaiting her father's return. Why, he couldn't be much over twenty-five. Yet here he was looking for all the world as if the cares of a nation and a whole flock of starving orphans were upon his lone shoulders! And how positively shabby the man's clothes were for all their neat, painful cleanliness and order! Perhaps it was the car; it certainly looked as though it might impoverish almost any one, and certainly anything as dubious looking as that mechanical device might cause its owner serious worry and thought and care; might, Rosalie thought, with a hint of laughter in her fine gray eyes, even make one ill, physically and otherwise!

But just then Doctor Brandon came in, greeting the stranger heartily, and Rosalie's eyes narrowed at the patent embarrassment of the young man, even while her father introduced them, and she discovered that he was the very young minister newly appointed to the Sleekport church.

"Who's got the mumps, now, Jeff?" bluffly joked the tired doctor as he fiddled absently with his case of medicine, "or has some one a new set of twins or perhaps the measles?"

"Well, you see, sir," began Geoffrey Harrington nervously, "that poor farmer out at the flats already has seven—and it seems the youngest isn't at all well, and I was wondering if perhaps you'd be willing to go out and—"

"You will not, dad," fiercely interrupted Rosalie. "You were up all night with that new Hennessey baby, and you know you'll never get so much as a penny, and I just won't let you go away out there in this cold—"

"Then," replied the tired young man with an even sadder, wearier droop to his shoulders, "I'm afraid the baby will die. It won't eat and it cries all the time, and it never sleeps—"

"Just a moment, Jeff," interrupted her father bruskly, "and I'll be with you."

Rosalie heard her father trying to get the district nurse, and when he finally came out with the information that they'd have to go alone Rosalie ran for her coat and hat and a moment later was shivering over the cold, flat road with her father shouting questions and answers to the young minister above the roar and clatter of the rocking, clattering car.

"I'm going to stay and help a while," whispered Rosalie when her father and Jeff came out ready to go. "You come for me later, dad, will you?" and Rosalie knew a strange thrill of gladness as Jeff eagerly offered to come and get her any time, and the thought helped her as she wrestled with soiled dishes, heaped up laundry and uncombed, unwashed children. Never in all her life had Rosalie worked so hard or so gladly, and at 5 when the early twilight was dimming the big old kitchen, now scrubbed and orderly, and the babies were being served a wholesome supper of sauce, milk, corn cake and cookies, Rosalie heard the bang, clatter and turmoil that heralded the approach of Jeff and his auto with unfeigned gladness.

As he held her coat for her Rosalie felt a tug at her skirt and she bent down to embrace one of the oldest of the little girls, who was trying to tender Rosalie a couple of worn shabby $1 bills with the mother's admonition that this was to be "on account," and turning suddenly, Rosalie looked at Jeff with quivering lips; that these people, so poor that they had hardly enough to keep body and soul together, should make this pitiful effort to pay a doctor's bill of over nine years' standing! And she had been grumbling over her father's leniency!

"Take it back to Mummy, darling, and tell her to buy you some shoes! She hasn't any account with us—not to be paid in money, at least!" And Rosalie pulled her hat low over her eyes and her collar high up, lest Jeff see the sudden tears that were streaking her face.

"The Hennesseys have twins," gently remarked the young minister as he guided the coughing, sputtering car to a standstill and turned to help Rosalie out.

"Twins!" gasped Rosalie. "But I thought they already had one—this morning!"

"They did, and they have, and now your father is doing tailspins in the library because Mr. Hennessey tried to give him $10 on account—he wouldn't take it!"

"He wouldn't take it—why?" gasped Rosalie stutteringly.

"Because they haven't a cent and would probably have to run a grocery bill to pay him that much! Your father," he continued seriously, "is the most wonderful man I've ever known, Miss Brandon!"

"I supose you're the same," faltered Rosalie, hopelessly. "I suppose you, too, would give away your shoes and go barefoot!"

"Not any more, I wouldn't—on account of somebody else—somebody who is more wonderful than her dad," gently answered the sky pilot as he took Rosalie's coat from her and went to hang it up. And Rosalie knew!

Preserving Autographs

To make indelible autographs that are written in pencil, the bureau of standards suggests spraying with the fixative used by artists for preventing the smudging of crayon and charcoal drawings. The fixative is a weak solution of bleached shellac in alcohol. The color is so pale and the film of shellac left on the paper is so thin that it cannot be noticed. Be careful not to close the book or turn the pages before the alcohol evaporates and the shellac loses its tackiness. Artists' supply houses sell a cheap tin sprayer, but an old atomizer for spraying the throat can be used. The solution should be well rinsed out of the tubes with alcohol if you wish to use the atomizer again.

Unimaginative

Two miners who had been brought up in the same village, but had long since drifted apart, met the other day.

"Hello, Tom! Let's 'ave a drink," said one.

"No Jack," replied the other, who had recently come under the influence of a revival mission, "I 'ave been born again."

"What!" exclaimed Jack, looking down at the other's legs. "Born again, an' still bow-legged?"—Weekly Scotsman.

Praise of Silence

Says Carlyle, "Silence is of eternity. Thought will not work except in silence. Silence, the great empire of silence; higher than the stars, deeper than the kingdom of death! Silence and the great silent men! A country that has none or few of these is in a bad way. It is like a forest that has no roots, which has all turned to leaves and boughs, which must soon wither and be no forest."

Giant Kodiak Bears

Kodiak island is off the southwest coast of Alaska. It is crossed by the 154th parallel. The Kodiak bear of North America has the largest size of all bears, and is the most bulkly carnivorous specimen. While possibly it is not the heaviest, it weighs in the neighborhood of 1,200 pounds.

All Wrong

Few stout women ever get weighed without becoming convinced that the machine is out of order.—Des Moines Tribune-Capital.

Served as Presidents of Continental Congress

Before the adoption of the Constitution, the united colonies had a sort of provisional national government, such authority as the states delegated being vested in the Continental congress.

The Continental congress was in session at intervals from September 5, 1774, to October 21, 1788, at Philadelphia, Baltimore, Lancaster and York, Pa.; Princeton and Trenton, N. J.; Annapolis and New York city.

During that time 16 men served as presidents of the congress—not of the United States. There was no President of the United States until George Washington, because there was no Constitution, and no such definite determination of the executive powers as there is now. The president of the Continental congress corresponded roughly, in his functions, to the Vice President in the present government.

John Hanson of Maryland was one of the presidents of the Continental congress. The complete list, with date of the election of each, follows:

Peyton Randolph of Virginia, September 5, 1774; Henry Middleton South Carolina, October 22, 1774; Peyton Randolph (again), May 10, 1775; John Hancock of Massachusetts, May 24, 1775; Henry Laurens, South Carolina, November 1, 1777; John Jay New York, December 10, 1778; Samuel Huntington, Connecticut, September 28, 1779. Thomas McKean, Delaware July 10, 1781; John Hanson, Maryland, November 5, 1781; Elias Boudinot, New Jersey, November 4, 1782. Thomas Mifflin, Pennsylvania, November 3, 1783; R. H. Lee, Virginia, November 30, 1784; John Hancock (again), November 23, 1785; Nathaniel Gorham, Massachusetts, June 6, 1786; Arthur St. Clair, Pennsylvania, February 2, 1787; Cyrus Griffin, Pennsylvania, January 22, 1788.

It was as president of the Continental congress that John Hancock was the first signer of the Declaration of Independence. — Cleveland Plain Dealer.

POULTRY

EGGS PRESERVED IN WATER GLASS

Take Advantage of Opportunity to Store for Winter.

When eggs are at their lowest price during the spring and early summer, many people take advantage of the opportunity and store a few dozen for home use during the winter when prices are unusually high.

The water-glass method for preserving eggs is one of the most reliable, according to O. C. Ufford, extension poultry specialist for the Colorado Agricultural college. One quart of water glass is mixed with nine quarts of water for preserving ten to fifteen dozen eggs.

Only clean, fresh eggs free from cracks should be preserved in water glass. Eggs with soiled shells should never be washed and used for storage. Infertile eggs are preferable whenever they can be secured. Here are the directions:

1. Use a 5-gallon earthen jar, well scalded.
2. Boil water and allow it to cool.
3. Mix water glass and boiled water in proportions of 1 to 9, as given above.
4. Place eggs in jar and keep covered with at least two inches of water glass solution. If one does not have enough eggs to fill the jar at one time, additional eggs may be added at any time and more solution poured over them.
5. Cover jar when full and place in a cool location.

The quality of the eggs removed from the preservative will depend upon their condition and quality when put down. They will serve the purpose of strictly fresh eggs for all household uses, but for boiling, the shell should be pricked with a needle as the preservative seals all pores on the egg shell, which prevents the escape of gases when boiling. The eggs should be washed before using to remove the white deposit that forms on them. One should never use an old solution for a new batch of eggs.

Prevent Coccidiosis Among Little Chicks

Bloody diarrhea or coccidiosis is a fatal, parasitic disease of poultry. Its effects become apparent during warm, rainy spring weather which is favorable for the development of the parasite egg in the soil.

The symptoms are unthriftiness, diarrhea and leg weakness. Chicks from four to six weeks old are most susceptible. Losses vary from 25 to 100 per cent. A chronic type of the disease may appear in the late summer and fall.

An ounce of prevention is worth many pounds of cure, says Dr. I. B. Boughton, chief of animal health at the University of Illinois. He has had opportunity to investigate hundreds of outbreaks of this disease. His recommendations call for new, clean lots each spring with the old ones plowed and planted to a crop. Thorough disinfection of houses and brooders at regular intervals is also necessary.

Light Colored Fowls Best for Marketing

In the dressed poultry trade today, the preference is for light colored birds, whether chickens, fowls or turkeys. Well fattened birds, properly bled and picked, bring the best prices. Defects in bleeding and picking may cause a price reduction of several cents a pound. Fowls weighing four and one-half pounds or more bring a premium over lighter birds. Broilers must weigh at least a pound at the beginning of the season and a pound and a half or more later and be well finished to satisfy the trade.

Fancy heavy capons weighing nine pounds or more top the market. Capons weighing five pounds or less frequently sell for less than ordinary roasting chickens. Smaller geese are wanted than formerly and young birds weighing nine to eleven pounds are most in demand. Ducks should weigh four and one-half pounds or more and white ducks are preferred.

Feeding Chicks

Don't feed the newly hatched chick too soon after hatching. It should not be given food for at least 48 to 72 hours after hatching, says Orville Ufford, poultryman at the Colorado Agricultural college. The yolk which is only partly used up as food during the incubation period is taken into the body of the baby chick just before it emerges from the shell. This furnishes sufficient nourishment to maintain the life of the chick for a number of days.

Mash for Eggs

Although feeding poultry for egg production at the present day has reached a very high standard of efficiency, it is still noticeable that some poultry keepers disregard the advice that is obtainable through many sources as regards the composition of mashes—ingredients to use and those not to use. The general farmer in particular is often at fault. He has many advantages over the commercial poultry farmer beside home-grown feeding stuffs.

Natural Duck Feed

The natural feed of the duck is both vegetable and animal in nature. In the wild state it gathers its feed from brooks and marshes, consisting of flag, grasses, small fishes, water insects, etc. When the birds are raised in confinement this diet must, in a measure, be imitated to get results. The duck has no crop, the feed passing directly from the throat to the gizzard, and as a consequence the food must be in a soft, mushy state and easy to digest.

HISTORY'S MYSTERIES

Unsolved Riddles That Still Puzzle Authorities Here and Abroad

The Wandering Jew

THERE is little mystery to the story of the "Wandering Jew," so far as the personage himself is concerned, but there is a deep and as yet unsolved mystery about the origin of this legend, dealing, according to the Jewish encyclopedia, with a shoemaker who, taunting Jesus on the road to Golgotha, was told by Him to "Go on forever till I return"—or, according to the more popular version, "Tarry thou till I come."

No one seems to know just how this story started. So far as can be learned, the legend first appeared in a pamphlet of four leaves printed at Leyden in 1602 by Christoff Crutzer, but no printer of that name has ever been located and the real place and printer cannot now be ascertained. The legend spread quickly throughout Germany, no less than six different editions of the pamphlet appearing during the year 1602 and forty were extant in Germany before the end of the Eighteenth century, while the story made its way into England in 1625, and to other European countries about the same time, eventually forming the basis of a number of novels and other imaginative works based upon the same idea.

According to Bebauer, one of the recognized authorities upon subjects of this kind, the legend is founded on the words given in Matthew 16:28, which are quoted in the earliest German pamphlets of 1602. Another version of the legend declares that the attendant Malchus, whose ear was cut off by Peter in the garden of Gethsemane, was condemned to wander over the face of the earth until the second coming of Christ.

The action of Malchus is associated by several biblical commentators with the scoffing at Jesus and an actual predecessor of the wandering Jew is recorded in the "Flores Historiarum," by Roger of Wendover, in 1228. Here it is stated that an Armenian bishop, then visiting in England, was asked by the monks of St. Albans about the celebrated Joseph of Arimathea, who had spoken to Jesus and who was popularly supposed still to be alive. The archbishop declared that he had himself seen him in Armenia and that his name was Cartaphilus.

Moncure D. Conway attempts to connect the legend with those of other "immortals"—King Arthur, Frederick Barbarossa, Don Sebastian of Portugal, Thomas the Rhymer and even Rip Van Winkle, claiming that all are founded on the same belief in the immortality of certain prominent personages, some of whom are notable for their praiseworthy exploits and others for crimes which they must expiate by centuries of bodily suffering.

Numbers of persons have presented themselves as the "Wandering Jew" and have gathered varying numbers of believers in their statements during the past three centuries—the most notable of these being Count Cagliostro, the Italian imposter who stopped at nothing in order to attain his ends. In 1542 a man appeared in Hamburg, Germany, who declared that he had been present during the passion of Christ and that since that time he had wandered through many countries and over many lands, as a penance for his voluntary participation in the dragging of Jesus before Pilate.

Another man, representing himself to be the same character, appeared in the Netherlands in 1575, arriving at Strassburg a few years later and, presenting himself before the magistrates, informed them that he had visited their city two centuries before, which is said to be proved to be true by "reference to the registers of the town, wherein the stranger pointed out an entry about himself and also called attention to names which he mentioned before they were shown to him."

The "Wandering Jew" was next heard of in the West Indies and, in 1604, he made his appearance in France, where he caused a considerable sensation. On April 22, 1774, the Wanderer, or an individual who impersonated him, appeared in Brussels under the name of Isaac Laquedem and only a few years ago another claimant to the title made himself known in central Germany—but not one of these surrounded himself with the atmosphere and apparent sincerity of Cagliostro, a confessed imposter, who had so grounded himself in history and languages as to be able to speak with apparent authority about every event of importance which had taken place since the beginning of the Christian era.

Knew One of Them

An old negro, spending last summer in Massachusetts with his "white folks" from the South, believes there is nothing worth knowing that has escaped his employer's mind.

When he heard the cook reading from a paper that only 12 men in the world were capable of understanding the Einstein theory, he said: "Dinah, read dat piece agin and see effen it specify who de other 'leven men is 'sides Kunnel Jackson."—Boston Globe.

Life's Unchanging Law

Blessed is he who gives, not he who receives. This is the universal law of life. The world is a storehouse from which we can take out no more than we put in. The returns we get are measured by the service we give.—Grit.

Efficiency

Since most important business deals are closed across lunch tables now, why hasn't some executive thought of breaking down sales resistance in his office by covering his desk with a linen tablecloth and dressing his secretary as a waitress?

Evolution of the Nook

Great inventions are often the simplest: The architect took the door off a clothes closet and called it a breakfast nook.—Bangor Daily Commercial.

Flies carry sickness

Free from pimples!

What a relief it is to know that your skin can be free of pimples. Anoint it gently with CUTICURA OINTMENT, then wash off in a few minutes with CUTICURA SOAP and warm water. A very simple but satisfying treatment of pimples!

The CUTICURA Treatment has been used for years in thousands of homes throughout the world.

Soap 25c. Ointment 25c. and 50c. Talcum 25c. Proprietors: Potter Drug & Chemical Corporation, Malden, Mass.

Cuticura

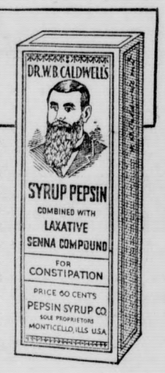
When you're at the end of your string, keep going. Then it will become a sport.

A man of means seldom gives himself away.

Some people with a very little knowledge have an ample fund of wisdom.

Weeds that attack crops cost California $25,000,000 a year.

Doctor's PRESCRIPTION when system is sluggish; costs nothing to try



When your bowels need help, the mildest thing that will do the work is always the sensible choice. Take a laxative that a family doctor has used for all sorts of cases of constipation. Dr. Caldwell's Syrup Pepsin is so pleasant to the taste, so gentle in its action, it is given children of tender age and yet it is just as thorough and effective as stronger preparations. Pure senna, and harmless laxative herbs; ingredients that soon start a gentle muscular action. Avoid a coated tongue, bad breath, bilious headaches, etc. Every drug store has Dr. Caldwell's famous prescription in big bottles. *Or just write Dr. Caldwell's Syrup Pepsin, Monticello, Ill., for a free trial bottle.*

Youth Found in Lead in the Open Country

A study of where folks live and what they do in rural counties is given in a new bulletin on the rural population of Tompkins and Schuyler counties, New York, by Prof. Bruce L. Melvin of Cornell university.

Youth is found in the open country, he says, and age in the villages; this age difference and the natural preferences of different ages bring a problem that must be met in the community organization and in unification, Professor Melvin points out.

Industrial influences on districts surrounding cities change the classification more than is generally apparent. Ithaca township, surrounding Ithaca city, has nearly 60 per cent of its residents in the non-farming group. That township has about 54 people for each square mile; Cayuta township, in Schuyler county, the other extreme, has not quite 13 people for each square mile.

Families are largest in the industrial village and smallest in the incorporated rural villages. The industrial villages have most men in the productive ages of from 15 to 49 years.

League of Nations' Council

The five permanent members of the council of the League of Nations are France, Germany, Great Britain, Italy and Japan. The non-permanent members are nine and include Cuba, Finland, Canada, Spain, Venezuela, Persia, Peru, Poland and Jugoslavia. Both Brazil and Spain were asked to reconsider their resignation from the League. Spain accepted the offer and is a member of the council. Brazil refused to do so and her resignation became effective in June, 1928. Argentina withdrew but is taking steps to return. Costa Rica is deliberating.

Nobody worries about trifles. They're not trifles when we've started worrying about them.

The Alaskan Flag

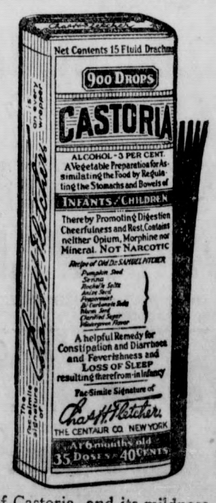
Alaska has recently adopted an official flag. It has a blue field, bordered on three sides with a narrow band of gold. In the upper right-hand corner appears Polaris and below it the constellation Ursa Major, with its two "pointers" indicating the North star. The field of blue is held to symbolize the evening sky, the sea, mountain lakes and the wild flowers of Alaska; and the gold border, the wealth in Alaskan hills and streams. Polaris is the ever-constant guide of the explorer, woodsman, prospector and surveyor. And Alaskans hope that the northernmost star may some day take its place as the forty-ninth in our national emblem.

Helpful "Dome"

"Myrtle, didja ever see a fellow with as shiny a dome as this bird in front of us?" giggled Gert.

"No," grinned Myrtle, "I've been using it instead of my pocket mirror ever since we sat down here."

If Baby has COLIC



Net Contents 15 Fluid Drachms

CASTORIA
ALCOHOL—3 PER CENT.
A Vegetable Preparation for Assimilating the Food by Regulating the Stomachs and Bowels of
INFANTS / CHILDREN
There by Promoting Digestion Cheerfulness and Rest, Contains neither Opium, Morphine nor Mineral. NOT NARCOTIC
A helpful Remedy for Constipation and Diarrhoea and Feverishness and LOSS OF SLEEP resulting therefrom in Infancy
Fac Simile Signature of
THE CENTAUR CO. NEW YORK
35 DOSES - 40 CENTS

A cry in the night may be the first warning that Baby has colic. No cause for alarm if Castoria is handy! This pure vegetable preparation brings quick comfort, and can never do the slightest harm. Always keep a bottle in the house. It is the safe and sensible thing when children are ailing. Whether it's the stomach, or the little bowels; colic or constipation; or diarrhea. When tiny tongues are coated, or the breath is bad. Whenever there's need of gentle regulation. Children love the taste of Castoria, and its mildness makes it suitable for the tiniest infant, and for frequent use.

And a more liberal dose of Castoria is always better for growing children than some needlessly strong medicine meant only for adult use. Genuine Castoria always has Chas. H. Fletcher's signature on the wrapper. Prescribed by doctors!

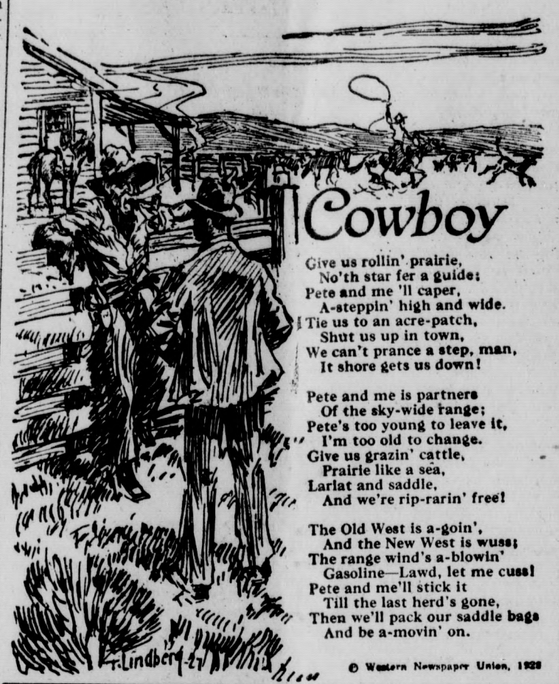
Songs of Plain Folks

By James Lewis Hays



Cowboy

Give us rollin' prairie,
No'th star fer a guide;
Pete and me 'll caper,
A-steppin' high and wide.
Tie us to an acre-patch,
Shut us up in town,
We can't prance a step, man,
It shore gets us down!

Pete and me is partners
Of the sky-wide range;
Pete's too young to leave it,
I'm too old to change.
Give us grazin' cattle,
Prairie like a sea,
Lariat and saddle,
And we're rip-rarin' free!

The Old West is a-goin',
And the New West is wuss;
The range wind's a-blowin'
Gasoline—Lawd, let me cuss!
Pete and me'll stick it
Till the last herd's gone,
Then we'll pack our saddle bags
And be a-movin' on.

© Western Newspaper Union, 1929

Harry T. Hock, said to be a paper salesman of San Francisco, and a veteran of the World War, was arrested this week by Under Sheriff Edward Ferrell on a charge of burglarizing the home of F. Carlisle in Bayview Heights, near Belmont. Hock was arrested in San Francisco and was brought to the county jail here by Ferrell.

Hock is reported to have had in his possession a radio set and several valuable rugs from the Carlisle home. He is reported to be suffering from the effects of his service in the war.

HUGE TELEPHONE PLANTS PLANNED FOR SKYSCRAPERS

Almost Entire Floor in One Building to House Single Exchange

Telephone engineers in New York City are being kept busy these days in making plans for the installation of cable in a large number of skyscrapers now being erected on Manhattan Island. In particular, six of these new skyscrapers have entailed considerable work.

One of these new buildings is the New Yorker Hotel recently completed at Eighth Avenue and Thirty-fourth Street. Nearly two miles of cable of all sizes were used in this hotel which has 2,600 telephones served through a 24 position private branch exchange with a capacity of 3,000 lines and with 140 central office trunks.

Then, there is also the new 70-story Bank of Manhattan building on Wall Street which is now being erected and which will require about 4,450 feet of cable, containing some 2,600 miles of conductor wire. It is estimated that the structure, when completed, will contain 3,200 telephones. There are also the 26-story Board of Trade building at 370 Lexington Avenue, the 43-story Lefcourt Colonial building at 295-7 Madison Avenue, the 36-story Daily News Building on Forty-second Street, and the 78-story Chrysler building on Lexington Avenue. These structures will require about 2,550 feet of subsidiary block cable and about 6,550 feet of house cable, varying in size from 51 to 1,212-pair.

A single dial private branch exchange will serve the communication needs of the National City Bank, the National City Company, and the City Bank-Farmers Trust Company upon the completion of the new building to be erected in the financial district bounded by Exchange Place, William, Hanover and Beaver Streets. The ultimate capacity of this board will be about 7,000 lines, and almost an entire floor of the new building will be required to house it. It is expected that the building will be completed for occupancy by January 1, 1931, at which time the telephone equipment must be ready for service.

Society

The Misses Mura and Maude Stillesson were hostesses to the members of the sewing club at their home on Webster street last Monday evening. Mrs. Ramon Dimick and Mrs. William Brown assisted in entertaining the guests, who included Mrs. Carl M. Fisher, Mrs. Donald Bogie, Mrs. Fred Schmitz, Mrs. Moroni Jameson, Mrs. Addison Hall, Mrs. Charles Kinkead, Mrs. Joseph Gibson, Mrs. Ramon Dimick, Mrs. William Brown, Mrs. Thomas Vernall, Mrs. Jack Strand and the Misses Nellie Adams and Mildred Iwerks.

The Redwood City Lions Club will be well represented at the 4th district convention to be held in Stockton next week. Fifteen members of the local organization are plannig to leave Tuesday for Stockton. Norman S. Menefee is in charge of the arrangements. A full and interesting program for the entertainment of the Lions and Lionesses, including river excursions, golf tournament, grand ball and stunts is being prepared by the Stockton committee. Among the guests of honor at the convention will be Ray L. Riley, international president, and Sam Carpenter, Jr., district governor. Dr. Tully C. Knoles, president of the College of the Pacific, will be the main speaker.

Eastern Star Sunday at the first Congregational Church will be Sunday, May 18th, at 10:45. The members of the Star will attend in a body. Special music. Do not fail to be present. The public is cordially invited.

GARDENER—First Class, wants care of place requiring one day or more per week. Phone Redwood 857. 5-16-1tp.
